REPUDIATION OF SOLEMN BOND

U. S. Senate's Action on Panama Canal Bill Arouses Indignation Among British Shipowners

QUESTION MUST BE REFERRED TO HAGUE

London Newspaper Hopes President Taft Will See the Necessity of Safeguarding His Country's Honor

LONDON, Aug. 10.—British ship owners are indignant at the action of the American senate with respect to the Panama canal. They admit a big trade is waiting to be done as soon as the canal is open, but are inclined to think the great preferential treatment accorded to American ships will lead traders to adhere to the old routes.

Representatives of prominent firms have expressed the opinion that much might happen before the canal is opened and that the protests of foreign powers might induce a change in the American policy. The amendment permitting the registration of foreign-built vessels as amended, it is thought may give an impetus to British shipbuilding.

Press Comment

The editorial comments continue to display strong feeling. The Spectator says:

"The senate's decision is a clear breach of the Hay-Pauncefote treaty and an example of the sort of policy the United States should studiously avoid if the Monroe doctrine is permanently to commend itself to peace-loving nations. It must be honored and respected if it is to remain an instrument of peace. If the senate persists in its present course, Great Britain must direct its strongest efforts to getting the toll question referred to arbitration at The Hague."

The Daily News says the question of excepting coastwise vessels might admit of argument as to foreign vessels being allowed to engage in the American coastwise trade, but that the other proposed preferences would knock the bottom out of the Hay-Pauncefote treaty, and certainly presents a case for arbitration.

The Daily Express says that nothing heretofore has been done or attempted under the pretences of diplomacy that has been quite so frank in its repudiation of a solemn covenant between great powers, and adds:

"We still hope that the president will see the necessity of safeguarding his country's honor, and we decline to believe that the United States can be so blind as to refuse arbitration."

The Express suggests that Great Britain would be able to retaliate by placing harbor dues on American vessels.

The Times discusses the interpretation of the term "coasting trade" in the various countries, and says: "This point deserves impartial consideration. There could be no fitter subject for determination by The Hague tribunal. We are not very sanguine of readiness to submit it to arbitration, but it is at least important that we should know what exemption by the senate actually means—whether it is a benefit conferred on coasting vessels in the old and natural meaning, or whether it includes colonial trade."

Senate Reaffirms Action

WASHINGTON, Aug. 9.—The Panama canal administration bill providing for the free passage to American ships, prohibiting railroad owned vessels from using the waterway and authorizing the establishment of a one-man government when the canal is completed, was passed tonight by the senate by 47 votes to 15. The provisions for free tolls, which was fought out in the senate on Wednesday, was endorsed again just before the passage of the measure.

Attached to the bill as it passed the senate were two important amendments directed at trust or railway control of steamships. The first by Senator Reed would prohibit ships owned by an illegal industrial combination from using the canal; and the second, by Senator Bourne would force railways to give up water lines that might otherwise be

LABOR SITUATION

Hon. Robert Rogers Says 50,000 Men Will Be Wanted to Harvest Crop

WINNIPEG, Aug. 9.—In the course of an interview with Hon. Robert Rogers, minister of the interior, he said last night:

"I am keeping in pretty close touch with the labor situation in the west so far as it relates to the need of harvest help and the heartiest co-operation of the interior department and its staff in meeting the demands may be relied on.

"At least 50,000 men will be required to harvest this year's crop in the three prairie provinces."

NEED OF ELEVATORS

Montreal Harbor Commission May Erect Three Plants With Total Capacity of 7,500,000 Bushels

MONTREAL, Que., Aug. 9.—The harbor commissioners of Montreal are considering plans for the construction of three elevators in the near future. Each of these elevators will have a capacity of 2,500,000 bushels, the three giving a total capacity of 7,500,000.

For Volcano Sufferers

SEATTLE, Wash., Aug. 9.—With a cargo of supplies for the relief of the Mount Katmai volcano sufferers the power schooner P. J. Abler sailed for the north tonight. Aboard the Abler are 100,000 feet of lumber and 40 tons of building supplies to be used in constructing new homes.

MAY CREATE NEW PORTFOLIO

Mr. R. F. Green, of Victoria, Mentioned as Possible Minister of Mines in the Federal Cabinet

OTTAWA, Ont., Aug. 9.—It is very possible that next session an additional portfolio will be created and the west will secure a fourth minister. It is understood strong influence is being brought to bear by the mining interests to have a minister of mines appointed. Formerly the department of mines was under the minister of inland revenue. Last session this branch was transferred to the department of the interior. However, this is one of the heaviest departments. The minister of the interior has under him immigration, lands, Indians, and forestry department, as well as the mines. It is felt that under a full-fledged minister, the mining industry could be given far more encouragement than it has been in

Continued on Page 2, Col. 4.

THINKS YELLOW PERIL IS REAL

Mr. J. S. Willison, Editor of Toronto News, Expresses Views Upon Vital Question of a White Canada

FAVORS ENACTMENT OF STRINGENT LEGISLATION

"The more I visit the west, the more I am convinced of the necessity of enacting the most stringent legislation against Asiatic immigration. I am absolutely in favor of any action, even if it involves total exclusion, in order to keep this a white man's country. It may be said that such legislation might be fraught with international difficulties. For that I care not, and I am convinced that if Canada were to put up a strong enough case, the British government would see our viewpoint and accede to our wishes. We must maintain British standards of civilization and those standards will be impossible if we allow our coasts to be invaded by people who do not, and cannot, live up to them."

In these words, Mr. J. S. Willison, the editor of The Toronto News, and the Canadian correspondent of The London Times, expressed his personal views upon the vital question of a "White Canada." Mr. Willison was only in Victoria for two hours, arriving at 2:45 from Vancouver and leaving again at 4:30 for Seattle where he is to address the Canadian club today. He will then proceed to Vancouver to speak before the Canadian club of that city on Monday. But brief though his stay was he took a drive around the city and was able to witness the wonderful growth of Victoria since his last visit a few years ago.

Finds a New Nation

It is 17 years since Mr. Willison first visited the west. Since that time a new nation has been located west of Manitoba and the spirit of pessimism and doubt as to Canada's future which then existed has been replaced by a sentiment of optimism

Continued on Page 2, Col. 3.

MR. CHURCHILL TO TOUR CANADA

First Lord of Admiralty Will Speak in Different Cities of the Dominion on Subject of Imperial Defence

NAVAL CONFERENCES NEARING AN END

Following a Direct Contribution Policy Will Be Decided Upon When Premier Borden Returns

LONDON, Aug. 9.—The conferences with the Canadian ministers on the naval question have practically concluded. It is probable that, by wish of the British government, an invitation will be extended by Mr. Borden to Sir Wilfrid Laurier to meet Mr. Winston Churchill, first lord of the admiralty in Canada at the end of September to discuss the matter involved. There is no doubt here that the existence of an emergency has been proved and that Canada will make a contribution of an amount to be determined after Mr. Borden consults his colleagues, after which Mr. Churchill will go to Canada. A permanent naval policy will be determined upon, if possible, at a round table conference of all political parties in Canada. The British desire is to remove the scheme from the sphere of party politics as has been done in Great Britain.

Mr. Churchill will arrive in Canada with Admiral Prince Louis of Battenburg and an imposing naval squadron.

Will Tour Canada

Mr. Churchill and Mr. Hamar Greenwood, M. P., will make a tour of the principal cities of Canada and discuss imperial defence. The ministerial opposition here to Mr. Churchill's tour is due to an unwillingness to influence Canadian opinion, but the Unionists urge prompt action and Mr. Churchill is willing.

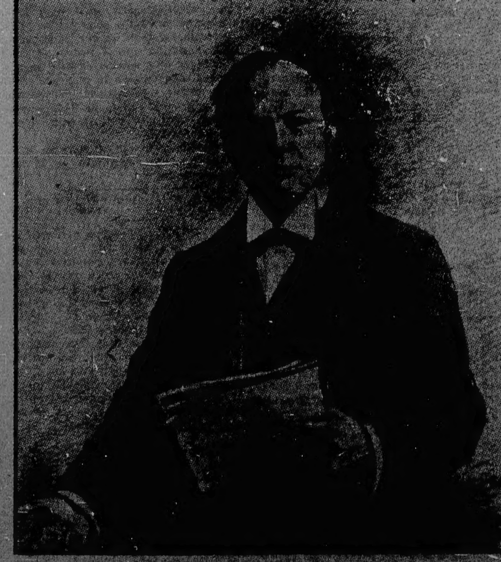

Prominent government and opposition members say Australia is becoming popular with British investors owing to its naval contribution. It is strongly felt that Canada must show practical loyalty and remain a part of the empire to keep the confidence of Great Britain financially. It is authoritatively stated that Mr. Borden has promised nothing definite in regard to the navy.

As to the references to Imperial copartnership, the best minds here urge that all should go slow. It is only proposed now that there should be a Canadian minister in London for a part of the year for the exchange of confidential information on foreign policy. The union should be consultive. British ministers see the danger of a rigid compact binding the Dominion's action in any imperial council.

Mr. Asquith declined Mr. Borden's invitation and Mr. Churchill's visit is not intended to stampede Canada but to return the compliment of the Canadian cabinet.

The French government holds that it can not allow Great Britain to share in a penny postage scheme and therefore such an arrangement with Canada cannot materialize.

Mr. Samuel, the British postmaster-general, and Mr. Pelletier, discussed thoroughly the state cable question, but with intangible results.

THE RIGHT HON. WINSTON CHURCHILL

The First Lord of the Admiralty will visit Canada next month and give a series of speeches on the question of Imperial Defence.

PREMIER BORDEN SAILS ON THE 23RD

LONDON, Aug. 9.—The Canadian ministers' visit to Dublin may now be regarded as closed. Hon. C. J. Doherty, who leaves London today for good will spend a few days in Ireland and sail for home on Friday. Hon. Mr. Pelletier will accompany him. Hon. Mr. Hazen has decided to sail on the 21st. Premier Borden, according to present arrangements, following two days later.

The premier will spend the week-end with Lord Roberts. His last two public engagements will be the receiving of the freedom of the city of Glasgow, in recognition of his services to the Dominion, and attending the launching of the Australia on Friday. It is hoped Mrs. Borden will be able to perform the christening ceremonies on the latter occasion.

Milling Merger

BERLIN, Ont., Aug. 9.—Local millers stated today that they are interested in a merger of the milling interests of Western Ontario, which they expect will be consummated in the course of a few weeks. The merger will involve some fifty concerns, the combined capital of which is estimated at $2,500,000. The object of the merger is to place the Ontario miller on a basis which will enable him to compete with the larger companies of Canada.

IMMIGRATION TO THE DOMINION

Over 175,000 Persons Arrive Within Three Months, the Majority Coming Through Ocean Ports

OTTAWA, Ont., Aug. 9.—During the three months, April 1 to June 30, of the current fiscal year, 175,341 immigrants arrived in Canada. Of this number 121,998 arrived at ocean ports and 53,343 from the United States.

These figures show an increase of 15 per cent as compared with those for the corresponding months of last year, which were 109,316 at ocean ports and 43,802 from the United States, making a total for the three months of the previous year of 153,118.

During the month of June this year there were 45,388 arrivals, 32,140 at ocean ports and 13,748 from the United States as against 40,000 for June last year.

EAST MIDDLESEX

No Writ for By-Election Issued Pending Result of Protest

LONDON, Ont., Aug. 9.—The writ for an election in east Middlesex has not been issued and it is said cannot be issued until the protest against the return of the late sitting member has been disposed of by the courts. The death of Mr. Sutherland, the member in question, of course leaves the constituency vacant, but the defeated candidate, George W. Neeley, ex-M. P. P., made claim to the seat and it is said he can legally press his claim.

Bathing Fatality

CALGARY, Alta., Aug. 9.—Richard, the 16-year-old son of Mr. and Mrs. James Wilcox, was drowned at Frank Wednesday afternoon while bathing in the river.

GUARDING THE EMPIRE'S PORTALS

Sir Richard McBride Speaks in Vancouver on British Columbia's Place in Scheme of Imperial Defence

"CULTIVATE A GREATER NATIONAL SPIRIT"

Security of Great Works Being Constructed in Province Dependent on Predominance of British Navy

VANCOUVER, B. C., Aug. 9.—The fifth annual convention of the Canadian Pharmaceutical association was concluded this evening by a banquet at which the chief speaker was Sir Richard McBride. The premier, who was enthusiastically received, made an important reference to Empire questions and especially to the matter of naval defence. He said that British Columbia and Vancouver were vitally interested in the supremacy of the British navy being maintained. The province was one of the portions of the Dominion called on to keep guard of the country's portals. The security of the immense railway facilities, warehouses, factories and docks being constructed at immense cost, depended for their security on the maintenance of the Empire's naval predominance. He urged the provinces to cultivate a greater national spirit and said the man in Toronto had just as much right to be proud of the products of British Columbia as had the man in Vancouver.

Mr. H. H. Stevens, M.P., called on Canada to keep up the bars of citizenship against foreigners who were not sufficiently assimilated to be good and patriotic Canadians.

The druggists will meet next year in Toronto. The new president is J. H. H. Jury of Bowmanville, Ont.

FISHING ACCIDENT

VANCOUVER, B. C., Aug. 9.—Otis Staples, a millionaire lumberman of east Kootenay, is here getting special treatment for his left eye, the sight of which he lost three days ago in a remarkable manner. He was fishing trout in a little stream east of Marysville when his hook caught in his eye. He was unable to extricate it and being alone was forced to ride 30 miles in his motor car to get surgical assistance. His eye was by that time damaged beyond repair and was taken out.

CANADA'S ERA OF PROSPERITY

Revenue for First Four Months of Fiscal Year Shows an Increase of Twelve Million Dollars

$20,000,000 WIPED OFF NATIONAL DEBT

OTTAWA, Ont., Aug. 9.—Unexampled prosperity is indicated in the financial statement for July and the first four months of the fiscal year just issued.

The revenue for the latter period aggregated $52,477,317, an increase of $12,000,000. This constitutes a record. In July the aggregate revenue was $14,619,207, a three million increase.

The principal sources of revenue in the four months were: Customs, $36,649,574; excise, $6,520,620; public works, $4,438,000; post offices, $8,000,000. The expenditure on consolidated revenue was $28,398,071, an increase of five millions, and on capital, $4,897,354, a decrease of $800,000.

Since the beginning of the fiscal year Hon. Mr. White has decreased the debt by $20,000,000.

STORM AT KAMLOOPS

Front of Warehouse Blown Out in Electrical Disturbance of Hurricane Force

KAMLOOPS, B. C., Aug. 9.—A severe electric storm visited Kamloops last night with hurricane force. The front of a warehouse was blown out to the edge of the sidewalk and many trees blown down. It as the most severe ever felt here.

Canadians Honored

LONDON, Aug. 9.—The King has appointed Sir H. H. Pellatt, Lieut. Governor Langelier of Quebec, Major Hodgetts and Daniel Robert Wilkie, the banker, knights of grace of the order of St. John. Ladies Mount Stephen, Tilley, Drummond, Mrs. Samuel Nordheimer and Madame Belque are made ladies of grace of the same order.

150TH ANNIVERSARY

Governor-General to Officiate at Commemorative Ceremony in Halifax

QUEBEC, Q., Aug. 9.—On the invitation of Premier Murray of Nova Scotia, Sir Francois Langelier, Lady Langelier, Capt. Victor Pelletier, A. D. C., and Sir Lomer and Lady Gouin, will leave here on Monday next for Halifax to attend the dedication of the tower which has been erected to commemorate the hundred and fiftieth anniversary of the convening of the first elective assembly in Nova Scotia.

The dedication will take place on August 14, and the ceremony will be performed by H. R. H., the Duke of Connaught.

DEPARTMENT OF HEALTH

Need of Separate Portfolio Emphasized By Ottawa's Typhoid Epidemic

WINNIPEG, Man., Aug. 9.—"This serious outbreak of typhoid at Ottawa emphasizes more than ever the need of a separate Dominion department of health. If it is not to be placed under a separate portfolio, it should at least be placed in the hands of a deputy minister," said Hon. Dr. W. J. Roche, secretary of state, who arrived here this morning from Ottawa.

Counterfeit $20 Bill

OTTAWA, Ont., Aug. 9.—Word was received at the Dominion police headquarters this morning stating that a counterfeit twenty dollar bill was discovered to be in circulation in Hamilton.

IS AMAZED AT CITY'S GROWTH

Hon. W. J. Hanna, Provincial Secretary of Ontario, Astonished at Wonderful Progress Here

"What do I think of British Columbia? Well, you need hardly ask me that. This is my fifth visit to the province, and my third to Victoria, and I am amazed at your development. It passes my comprehension how you can make such wonderful progress and we people in the East know little or nothing about it. I have not yet had an opportunity of seeing how Victoria has grown, but I hope to do so before I leave for home on Sunday, but the little I saw this afternoon convinced me that the Princess Louise was right when she said that she knew of only one place which was nearer to heaven than Balmoral, and that was Victoria.

"One thing struck me forcibly when on the mainland, and that was the magnificent roads which your government is building, and I intend to give some time to the study of the system employed. I want to know the cost per mile and the method of construction. You probably know that we are in Ontario entering upon an advanced good roads policy and are seeking pointers from wherever we can get them. I want to know whether your roads would be suitable to our climate, whether they would stand the severe frost which we have and all the data which I can get on the subject. I am told that you have a splendid island highway here, and I hope to see it for myself before going home."

In these words, Hon. W. J. Hanna, provincial secretary of Ontario, began a conversation with a Colonist reporter, at the Empress last night. His enthusiasm over the provincial roads was quite evident, he recurring to the topic several times. He was also interested in the growth of the provincial capital, expressing his delight at the magnificently paved streets and the evident system which marked the administration of the city.

Proud of Policy

Eventually the reporter got Mr. Hanna to talk about Ontario affairs, and he was eloquent as to the success of the Whitney government's policy in filling up Northern Ontario. "We are changing the condition when all there was to connect the East and the West was two lines of rail. There is an immense area of land in New Ontario which we are clearing, and which, when cleared, will be as productive as the prairies of the West. It stretches from the great lakes to James Bay, and the Grand Trunk Pacific runs through the heart of it. Last session we voted $5,000,000 for building roads and opening up this area to settlement, but already settlers are coming in faster than we can build the roads. Before many years

UNIONISTS IN JUBILANT MOOD

Capture of Northwest Manchester Is Eighth Seat Won From Radicals Since General Election

LIBERALS FAIL TO EXPLAIN DEFEATS

United Kingdom Said to Have Grown Heartily Sick of Finance Methods of Mr. Lloyd George

LONDON, Aug. 9.—The capture of a seat in the by-election at North-West Manchester yesterday when Sir John Randles, Unionist, defeated Gordon Howart, the Liberal candidate, has infused a remarkable sprit of jubiliation in the Unionist party. It is the eighth seat the Unionists have won from the Radicals since the general election and all efforts to explain away the successive defeats of Liberal candidates at by-elections fail to dissipate the sense of depression on the Liberal side, which is enhanced by the resignation of the Master of Elibank, who organized the successful Liberal election campaign. There is, moreover, the rebellious attitude of the Labor party, which threatens to put 150 candidates in the field at the next general elections.

There are 75 Liberal-Radical members whose seats were won by majorities under 500. The Unionists argue that the country is so heartily discontented with the finance methods of Mr. Lloyd George that if a general election were held now a majority of these seats would be won for Unionists and many other seats captured by the party of Mr. Bonar Law.

DEPORTATION OF CHILD

Feeble Minded Immigrant Refused Entry to United States

WASHINGTON, Aug. 9.—Nine-year-old Stanley Stewart and his mother, of England, appealing for permission to cross the threshold of the United States to join the other members of their family and become American citizens, were ordered deported today. A special medical board at Quebec pronounced the little fellow feeble minded. The mother must return to England with him as an accompanying alien, but three other children were admitted to go to their father at Omaha.

Senator Hitchcock, of Nebraska, made the trip from Washington to Quebec to see if the sundering of the family ties could not be prevented. He is said to have been satisfied that no other course was open.

ICEBERG DETECTOR

Professor Barnes Admits His Experiments Have Proved Successful

MONTREAL, Que., Aug. 9.—Dr. H. T. Barnes was back in the city today after his recent trip up the Straits of Belle Isle, made for the purpose of experimenting in iceberg detection. Dr. Barnes stated that it had proved a successful trip from an experimental point of view, that he had been able to take careful measurements of icebergs and also to observe the effect of land and shoals on the temperature of the water. The observations made and conclusions arrived at by Prof. Barnes will be embodied in a special report which he will submit to the government.

EDMONTON'S ARMORY

Colonel Sam Hughes Promises That It Will Be the Finest in the West

EDMONTON, Alta., Aug. 9.—Edmonton will have its new armory right away. Tenders will be called for at once if they are not already advertised, and construction will be started immediately the contract is accepted. Incidentally Edmonton's armory will be the finest in the west and have features that have not as yet been incorporated in such public buildings heretofore. One of these new improvements is a swimming tank, fully equipped, and will probably be maintained by the city. This is the promise made today by Colonel the Hon. Sam Hughes.

Fifty Years Ago Today

(From The Colonist of August 9, 1862.)

Wholesale Desertion—Fourteen sailors belonging to H. M. ship Bacchante took one of her boats about twelve o'clock on Saturday night and made for the American side. The Grappler was despatched in pursuit, but without success.

Diggings Near Fort Kamloops—Parties of miners have left Lillooet [illegible] Fort Kamloops, in the Thompson River District, where good diggings are reported to have been struck. An excitement in that direction will no doubt [illegible] shortly. The diggings were found by some Oregon packers, on their way to Cariboo last month.

A Good Thing Spoiled—Two men, James Joice and his partner, kept a [illegible] on the Harrison-Lillooet route for about two months this summer, and served [illegible] nice meals to hungry travellers. About the time that their hotel was [illegible] the wagoners commenced to miss provisions and liquors from their [illegible] for a long time were unable to determine who were the thieves, when [illegible] Joice and his partner were watched and detected in the act of [illegible] and sent to New Westminster for trial. During the time they were in [illegible] is ascertained that Joice & Co. never bought a single article [illegible] but robbed the wagons regularly and systematically.

BUILDING PROGRESS IN VICTORIA

The imposing Hibben building on Government street, which replaces the structure destroyed by fire some months ago. It will shortly be ready for occupancy.

SITUATION IN THE NEAR EAST

Outlook in the Balkans More Hopeful—No Further Untoward Developments in Turkey's Crisis

LONDON, Aug. 9.—The Balkan situation is much more hopeful and the arrival at St. Petersburg of M. Poincare, the French premier, to confer with the Russian ministers is expected to have a further calming effect as tending to consolidate the European concert in favor of peace in the Near East.

With the Montenegro and Bulgarian difficulties in a fair way of settlement and no further untoward developments in Turkey's international crisis, there remains only the Albanian rebellion to cause uneasiness in Europe. The situation is still delicate, as the Albanians demand autonomous government, and fears are expressed in St. Petersburg that an autonomous Albania might include the Novibazar and Uskub provinces, in which case Servia, Bulgaria and Montenegro would all resent such action and possibly resort to hostilities.

Peaceful Counsel

CONSTANTINOPLE, Aug. 9.—The difficulties with Bulgaria and Montenegro are now apparently in a fair way of settlement, owing probably to the peaceful counsel tendered the Porte by Russia, Great Britain and other powers anxious to avoid a Balkan conflict.

Confirmation has been received of the report that both the Turkish and Montenegrin troops have withdrawn from the frontier, and the governments are waiting for a statement from the mixed commission. The Porte has also appointed a commission to inquire into the Kotschana massacre.

The Turkish minister of justice today visited the Bulgarian minister, M. Sarafoff, and it is understood assured him that the Porte profoundly regretted that innocent Bulgarian lives had been sacrificed. The government had determined not only to punish the guilty soldiers, but intended to take active measures to prevent a repetition of the massacre. The commission of union and progress has established headquarters at Saloniki, where several of the leaders have arrived.

The upsetting of a lamp by the earthquake today started a conflagration at Chorlu, on the Adrianople line. Three hundred houses have already been destroyed and the fire is still raging.

THINKS YELLOW PERIL IS REAL

Continued From Page 1.

and confidence unequalled in any other country in the world. Now settlers are coming in at the rate of thousands a week; the virgin soil is producing all sorts of rich crops of grain and fruit; the railways are overtaxed to supply the demands of the people; new cities are springing up in all the western provinces and the old cities have breathed the tonic of new life.

"I am an optimist of the first water regarding the future of Canada," said Mr. Willison. "There are grave problems to be solved of course, but what country ever amounted to anything which had not big problems to solve? And a country which has already solved problems in the way that Canada has, since the initial problem of confederation, cannot fail to find solution for the other problems which arise in the development of the country.

"There is an attempt being made in certain quarters to set the west against the east, but I am glad to say that I find no trace of that movement in British Columbia, which, I am delighted to see, is growing more Canadian in spirit every day. Much of the credit for this is due to the wise statesmanship of Sir Richard McBride, who has lost no opportunity of pressing the claims of his province upon the Dominion government, and who has the satisfaction of knowing that, now there is a friendly government in power at Ottawa, his chances of obtaining fair play are greater than they have ever been before.

Problem of East and West

"The agitation in Saskatchewan and in portions of Alberta will, I am convinced, soon die a natural death, when the people of those provinces become better educated as to what the east has done for them and learn that the interests of the west and the east are identical. The problem of freight rates for instance, is not a western question alone; it is a Canadian question; it is as pressing for solution in the east as in the west, and common sense will teach that both west and east have a common goal in desiring to have better regulation of rates, for the reason that just as the west wants cheap carriage for its products to the sea so the east wants cheap carriage for its manufactured goods to the west. This problem is being grappled with by the railway commission, which will doubtless find a remedy; if not, then parliament will have to legislate still more thoroughly than it has. Again the tariff issue is not impossible of solution in such a way as to satisfy both west and east, and I am convinced that the new finance minister, Hon. W. T. White, will deal with it in such a way as to satisfy all sections of the Dominion."

MAY CREATE NEW PORTFOLIO

Continued From Page 1.

the past. British Columbia is particularly anxious to see the minister of mines appointed.

The names suggested for the position are R. B. Bennett, Calgary; J. D. Taylor, New Westminster; Robert Green, the new member who succeeded A. S. Goodeve for Kootenay, Mr. Green was formerly minister of mines in the British Columbia government.

REPUDIATION OF SOLEMN BOND

Continued From Page 1.

the competitors if it were proved that they were stifling competition.

Opponents of the free toll provision for American ships, against which Great Britain made formal protest, carried their fight up to the last moment of the bill's consideration. Just before its passage Senator Root moved to strike out the second, giving free tolls to American coastwise vessels and Senator Boke Smith, of Georgia, moved to strike out the provision for free tolls to American ships in the foreign trade. Both were defeated by overwhelming votes. As the bill passed, it would permit American coastwise vessels to pass through the canal free without condition, while American foreign trade ships are made to pass through free if their owners agree to sell their vessels to the United States at a fair price in time of war or emergency.

In the form in which it returns to the house the bill adds to the general scheme for operating and governing the Panama canal provisions for the admission to American registry of any foreign-built ship owned by Americans, provided they are operated wholly in the foreign trade.

Senator Brandegee, closing the debate insisted that the provisions of the senate bill admitting American vessels engaged in the foreign trade to free passage in the Canal was an undoubted violation of the Hay-Pauncefote treaty with Great Britain. He opposed also the Williams' amendment admitting American owned foreign built vessels to American registration provided they did not engage in coastwise trade.

"It has been proposed that this would help build up the American merchant marine" he said. "To my mind it would be a humiliating spectacle for Americans to see ships travelling around the world under the American flag with the label 'Built in Germany' attached to them."

Oppose C. N. R. Subways

MONTREAL, Aug. 9.—The board of control today decided to oppose certain plans for the C.P.R., which call for ten level crossings over city streets along the line which is to be constructed from the Outremont end of the Mount Royal tunnel of the C.N.R. freight sheds in the east end of the city. The board will also oppose the C.N.R. plans for certain subways, maintaining the subways under the present plans will be too narrow.

COMMISSION READY TO BEGIN SITTINGS

Inquiry Into Municipal Government Opens at Parliament Buildings on Monday Morning—Its Scope Is Very Wide

Everything is ready for the first sitting of the royal commission on municipal government, which will be held at the parliament buildings on Monday, commencing at ten o'clock.

The commissioners are Messrs. W. H. Keary, a former mayor of New Westminster; H. A. Maclean, K. C., who, as deputy attorney-general for several years was closely in touch with municipal legislation; and A. E. Bull of Vancouver. The secretary of the commission is Mr. James Morton of Vancouver. In appointing the commission, the government has given it the widest scope in order that its report may be based on a complete survey of the whole field of municipal government.

The commissioners are anxious to give the fullest opportunity to everybody who has anything to say in relation to municipal administration, and will be glad to hear anyone who may appear before them for that purpose. It is their desire to obtain every possible bit of information in regard to the working of municipal institutions in this province, and any systems that anyone may think are preferable to those existing. The Union of B. C. Municipalities, of which Mayor Planta, Nanaimo, is president, and ex-Reeve Hose, of Surrey, is secretary, is expected to be represented, and the councils of the various cities in which the commission is to meet will also be heard from.

One matter to which the commission will direct its attention is that of a division of the Municipal Act into three parts, one applicable to what are known as cities of the first class—Victoria, Vancouver and New Westminster; the second providing for the government of cities of the second class, which would embrace all other cities and many towns in the province, and the third section applying to rural municipalities. It has been represented by the Union of Municipalities that one code for these several classes is not workable, and that the present Municipal Act is not as perfect a piece of legislation as it might and should be on that account. The commission will go into this very fully.

The commissioners will also look into what is called the commission form of government, both in the form of a civic commission and a board of control. The former will be studied in the American cities where it is force, such as Des Moines, Iowa, and Galveston, Texas, and the latter in the several Canadian cities where it is part of the municipal machinery.

The commission will sit here on Monday and Tuesday and will go to Nanaimo on Thursday.

MUNICIPAL "GRAFT."

DETROIT, Aug. 9.—The arrests today of sixteen aldermen and the announcement that the prosecutor would request eighteen warrants on Monday charging the sixteen arrested today and tomorrow, with additional aldermen, with conspiracy to defraud the city by bribery and other means, added a new sensation to those that have accompanied recent investigations into alleged graft in aldermanic circles. Seven of the nine aldermen now under bonds to appear for hearing on charges of bribery in the Wabash Railroad street closing case, were among the sixteen arrested today.

All of the officials arrested have been released from custody on bail. It is understood that the new warrants will in no way conflict with the charges preferred in the Wabash case, but that they will go into the official business transactions of the aldermen for several years back. The new arrests are said to be the result of the personal investigation of Prosecutor Hughes Shoppard, who was seriously ill when the first aldermanic arrests were made.

Men's Hats and Belts

HATS

Land and Water Outing Hats, in white, grey, red and mottled. Each .... 50¢

Straw Hats—Extra large range of these in the newest shapes, also a goodly stock of boaters. "Wilson's" prices, from $1.00

PAVEMENT BUT JUST COMPLETED TORN UP

Owners on Gladstone Avenue Strenuously Object to Destruction of New Street Work

With the new asphalt pavement on Gladstone avenue between Fernwood road and Stanley avenue completed but a brief two weeks, the work is now in process of being torn up to permit of the erection of a line of poles, and property owners on that portion of the thoroughfare are up in arms. They assert that there is no reason why the poles could not have been erected prior to the laying of the pavement and that the breaking up of the pavement will seriously affect its quality.

Alderman Gleason brought the matter to the attention of the members of the streets committee yesterday afternoon and urged that the city take steps to put a stop to the pavement destruction.

"It is about time," declared Alderman Porter, "that companies holding public franchises in this city are taught to consider the citys interests."

City Engineer Rust stated that so far as he was aware no application had been made to the city by any company for permission to erect a line of poles along that part of Gladstone avenue, but he would investigate and report back to the committee.

In regard to the action of the companies holding franchises covering city streets, the decision of the city that an injunction should be issued against the B. C. Telephone company to restrain the company from erecting poles upon city streets before the location of such poles is approved by the city, has not yet been given effect to. The injunction has not yet been issued and no notice of the same has been given to the company.

Seek Wider Powers

The actions of the companies in their dealings with city streets was severely commented upon at the meeting of the franchise committee of the city council held on Thursday morning. The necessity of amendments to existing legislation that would give the city wider powers in dealing with such companies was strongly urged. A number of recommendations will be submitted to the Municipal Commission when it sits here on the 12th and 13th inst. Among the matters in regard to which the city will ask wider legislative powers are those relating to the regulation of street railways as to overcrowding of cars, points of stoppages on streets; to compel the street railway and gas company and the Esquimalt Waterworks company, if they desire to lay pipe lines or car lines upon any street, to do so within a limited period after notice is given; to compel the Esquimalt Waterworks company to lay water mains on any street after the grades have been given by the city engineer; to compel the street railway company to "cradle" high tension wires; to regulate places of amusement by the appointment of censors with absolute discretion to approve or prohibit moving picture shows. In addition, the commisson will be asked to recommend legislation permitting of the validation of local improvement assessment bylaws where no step is taken within one month after the registration thereof to unset such bylaws; the reduction in the time for which local improvement and assessment works must be advertized, thus saving expense; a distinction between cities and smaller rural municipalities, the former to be given more extensive powers than now permitted under the Municipal Clauses Act, which is applicable to all municipalities without regard to population. Some recommendations may also be made to the municipal commission in regard to government by commission and the right of a municipality to elect representatives on the police and licence commissions.

The report of the franchise committee will probably be submitted at Monday night's meeting of the city council for further consideration before being presented to the Municipal Commission.

DUAL HANGING

James and Takahashi Pay the Penalty of Murder at Kamloops

KAMLOOPS, B. C., Aug. 9.—James, the man who shot Constable Aston, and Takahashi, the Japanese who killed a fellow countryman near here, were both hanged this morning. They both walked to the scaffold unconcerned. They ate a good breakfast. The Japanese said "Good-bye, gentlemen." James said carelessly, "So long, fellows."

Yesterday at noon James tried to break from the jail. When being served with dinner he made a dash through the cell door as it was opened to hand in the tray. He threw pepper in the eyes of Constable Simpson and tried to hit him. His object was to overpower him, seize the keys and unlock the door of the office in which the death cell is located. That door once open he would have fled to liberty. Simpson, half blinded with pepper, felled James with a blow of his baton over the head. James had abstracted quantities of pepper from day to day and had it in a paper tube, gummed together with oatmeal porridge.

The Japanese in the same cell witnessed the scene but took no part. Two other guards in the room got out of the way of the pepper shower.

NEW ISRAELITES

Three Thousand Russian Families May Settle in Bella Coola District

VANCOUVER, B. C., Aug. 9.—H. H. Stevens, M.P., was called upon today by representatives of a colony of three thousand Russian families who wish to come to British Columbia to live. They are members of the New Israelite clan and men here today say they will come and settle at Bella Coola on the northwest coast of British Columbia.

Keep Your Eye on This

FIFTH ANNUAL

CONSERVATIVE PICNIC

TO BE HELD AT

Goldstream, Saturday Next

August 17th

CANAL DUES

If the United States sees fit to violate the plain meaning of the Hay-Pauncefote treaty and discriminate in favor of its own ships in respect to the use of the Panama Canal, the other nations are not as helpless as may be supposed. The object of this discrimination is to build up the mercantile marine of that country at the expense of all other countries. Against such a policy no reasonable objection could be taken if it were not in violation of good faith with the other nations of the world. No intelligent person will for one moment imagine that the treaty referred to would have been entered into by the United Kingdom if it had been thought that for one moment its letter and spirit would have been violated as the Senate proposes that it shall be.

We suggest that, if the Bill passed by the Senate becomes law, all British countries should impose upon all United States vessels carrying cargo to British ports via the Canal, tonnage dues equal to the amount of the Canal dues payable by British vessels using the Canal. So far as the coasting trade of the United States is concerned, we do not feel called upon to make any protest. British bottoms could not participate in that trade; but if in respect to foreign trade the United States government seeks by a shameless violation of its pledged word to get an undue advantage, it is perfectly justifiable to pay it off in its own coin.

A PROGRESSIVE POLICY

One feature of the business tour of Hon. F. D. Monk, the federal Minister of Public Works, has been the discovery by him that, despite the much vaunted "progressiveness" of the Laurier government, every one of the great ocean ports of the Dominion, from Halifax westward, has been shamefully neglected, whilst hundreds of thousands of dollars have been frittered away on dredging and wharves at places which will never be of any public importance except from a political standpoint. It is gratifying to find the Minister asserting, as he did at Quebec last week, that it was his policy to so improve the national ports of the Dominion as to make them worthy of the great demands which our development requires. This will be a national policy, covering the whole Dominion, and neglecting no section where the expenditure of public money will bring good results. British Columbia will participate in this advanced policy, and we can at last hope that the period of neglect of our harbors by Ottawa has ended for good and all.

HON. W. J. HANNA

Mr. W. J. Hanna, the Provincial Secretary of Ontario, who is paying a brief visit to Victoria, is deserving of a hearty welcome from all our citizens, not only for his own good qualities but also because of his high standing as a public man. He has been prominent in the public life of Ontario for nearly thirty years, and has been the right hand man of Sir James Whitney, in opposition and in office, ever since he entered the legislature in 1902. An excellent lawyer, he has proved a splendid administrator of the very difficult department over which he presides, always guarding the rights of the people and ever vigilant to protect the interests of his province against either the Dominion or any of the other provinces.

No one who knows Mr. Hanna can fail to be impressed with his sturdy Canadianism, his faith not only in Ontario, but in every one of the other provinces as well, and he is an optimist of the optimists as concerns Canada as a whole. His Canadianism is of a sturdy type. It is coupled with an inbred love of British institutions which makes him an enthusiast for British connection, which, like the majority of Canadians, he regards as the chief asset of our Canadian nationality. There is no halting opinion in his mind as to what Canada should do in the direction of naval defence. He is an Imperialist, and as such is convinced that it is the present and the pressing duty of Canada at once to take such action as will prove to the world that the Dominion stands by the Empire through thick and thin, in peace and in war, and thus manifest that Imperial unity is a real thing and not a mere phrase for use on political platforms and in newspaper columns.

In this regard, Mr. Hanna is a fitting representative that he has come to British Columbia with a message for all the people that in this hour of danger it is Canada's duty, as it will be her privilege, to take such action as will ensure her participation in the burdens of the Empire, to which it is such a privilege to belong.

Politically, Mr. Hanna is a Conservative of the school of Sir John A. Macdonald and is proud to count himself as a loyal follower of Mr. Borden. But while Conservative, the Ontario statesman is not conservative; on the contrary, he is progressive to a marked degree. He has transformed the prison and asylum policy of his province in such a way as to make it the admiration of the whole world. Strictness of administration is coupled with charity and clemency to the individual. Indeed, experts have named him the John Howard of Canada by reason of his combination of justice with philanthropy.

Victoria extends the heartiest of welcomes to Mr. Hanna, and while hoping that his stay here will be pleasant, regrets that it will not be of longer duration.

HIGHWAY EXTENSION

In further reference to the desirability of extending the Island Highway to Seymour Narrows, we may point out that at Campbell river the domain of the E. and N. Railway company ends, the land beyond that stream being either vacant crown land or held by private individuals. We estimate that there may be quite 30,000 acres of good land that would be made accessible by the proposed extensions. The face of the country has a gradual slope towards the sea, but is otherwise level. The suggested road would give access to Duncan Bay, a point of very considerable importance. There is a very fine area adjacent to the bay, which, as has already been mentioned by The Colonist, is the best harbor for vessels to be found in a number of miles along the Island Coast. In respect to the desirability of making Seymour Narrows accessible to motorists, there is hardly any necessity of saying more than we have already said, namely, that it would add very greatly to the scenic attractions of the Island Highway.

We scarcely think our evening contemporary, which has objected to the suggested extension of the Highway, really understands the facts of the case. One would naturally expect it to give its sympathetic support to all projects looking to the development of Vancouver Island. For ourselves, we look upon highway extension in all directions as something for which Victoria newspapers ought to agitate, and in respect to the Island Highway itself, we hope the Department of Public Works will find itself able at an early date to carry out its plan for an extension to the northern end of the Island.

Our contemporary affects to look upon the extension of motor roads as a discrimination by the government in favor of the rich and against the poor settlers. This may be not because our contemporary "loves the poor," but for some other and perhaps not as commendable a reason. We are not aware of any settlers on Vancouver Island who are suffering from lack of roads. If there are, and our contemporary knows about them; we suppose that it ought to take the public into its confidence, so that the reasonable demands of such people may be met as soon as possible. The Colonist speaks from observation when it says that one may travel a thousand miles over highways on this Island without discovering any of these suffering settlers or hearing anything but approval of the manner in which the provincial government has dealt and is dealing with the highway problem as presented by this Island.

As to the policy of building good motor roads, it is somewhat novel and not a little surprising to see an objection raised in a Victoria newspaper. Whatever else may be denied in regard to the elements that will contribute to the future prosperity of this city, every one concedes that the scenic attractions of Vancouver Island and the tourist travel, which it will bring here, will be factors of the greatest importance. Motor travel is a great and growing feature of holiday-making. It gives tourists a means of taking their outings at their discretion. It enables them to reach localities that would practically be inaccessible to them if they had to keep to railways or steamship lines. Vast sums of money are being expended everywhere to provide highways for the use of motorists and everyone admits it to be an excellent investment of public money. Millions of dollars are expended in California by visitors who would not spend a dollar there if it were not for the motor roads. We fail to see why anyone in Victoria should raise any objection to the policy of motor road extension on Vancouver Island.

But a motor road, so far from being a drawback to the settler, is of the greatest advantage to him. A motor road is a good road, and every settler wants a good road. A motor road extending out into the vacant lands towards the north end of this Island, will be a colonising agency of very great importance, and will open up lands which would otherwise remain unoccupied for a long time to come. It will supplement in a necessary and highly valuable way the railway development of the Island. We do not hesitate to challenge criticism when we say that the construction of first-class highways simultaneously with the construction of railways on Vancouver Island is a policy for which the McBride administration will be commended by ninety-nine out of every hundred people. We do not at present recall any provincial government that has seen its way clear to embark upon this double policy over a wide area; neither do we know of any part of Canada where such a policy will be productive of as excellent and immediate results as it will on this Island.

ENGLISHMEN IN CANADA

"Why do you dislike Englishmen in Canada?" asks an Englishman. We do not dislike Englishmen in Canada. Some of us may dislike some Englishmen. Perhaps that is our misfortune; perhaps it is their fault. The only Englishman, who is disliked in Canada because he is an Englishman, is the Englishman who never lets any one forget that he is an Englishman. We have thousands upon thousands of Englishmen who do let us forget it, and we wish we had thousands upon thousands more of them.

The other day a certain former Torontonian, now a resident of Victoria and a gentleman of high attainments and prominent position, was in The Colonist office. He said that some people had called upon him in Vancouver to ask him to form a Toronto Society. His reply was to the following effect. I came here to better my position; if I had been satisfied with Toronto I would have stayed in Toronto; I don't see any reason why as a Torontonian I should segregate myself from my neighbors; I am a British Columbian; I will join a British Columbia society if you get one up. That is the true spirit, and if Englishmen in Canada would get a little of it into their mental attitude towards this country and its people, they would find themselves the happier.

But some will ask: Would you have us forget the land of our birth? Not by any manner of means. We only ask you to remember the land of your adoption. You must learn to take Canada as you find it. In some respects you may find it crude. We know its crudities quite as well as you do. There are many things that we do differently from the way you have been accustomed to seeing them done. You need not take the trouble to tell us so, for it will not make the least difference. Your ways are the ways of an old country; ours are the ways of a new country. When we go to Rome we are apt to get ourselves disliked if we insist on not doing what Rome does.

We repeat, and would like to publish it throughout the United Kingdom that of all people, Englishmen, including in the word all the people of the United Kingdom, are more welcome in Canada than any other people. They make the best possible citizens, neighbors and friends, except in the small minority of cases where they are constantly reminding us that they realize they are in "the Colonies," either by telling us so or by their unwillingness to fall in with Canadian ways.

RULE OF THE ROAD

For a periodical that professes to speak for all Canada, the Canadian edition of Collier's Weekly makes some funny "breaks." Referring to advice given to motorists by the Seattle Times, that in Canada they should turn to the left, Collier's says this is the "Vancouver practice." Apparently our contemporary is under the impression that turning to the left originated in the city on Burrard Inlet. Of course, it did not, as everyone in Canada outside of Ontario probably knows. It is the English custom, and a most sensible custom it is. Here is one sufficient reason for it: When a man is driving a horse, he ought to so sit that his whip hand will be on the outside. Therefore he must sit on the right. If he sits on the right, he will naturally turn to the left so as to be able to see if he is clearing the vehicle which he turns out to avoid. The English, who are the acknowledged masters of driving the world over, long ago saw the wisdom of this practice and adopted it. When Nova Scotia and New Brunswick were settled the English practice was adopted, and Quebec followed suit. So also, when British Columbia was settled, the sensible English custom was followed. But Ontario has permitted itself to be Americanized in this respect, and is doing its best to extend the Americanization throughout the Dominion. It has perverted Manitoba, Saskatchewan, and Alberta. Turning to the right is an awkward and dangerous custom.

The Seattle Canadian Club is coming to see us. The Victoria Canadian Club ought to arrange to give the visitors a hearty welcome.

The statement in regard to the suspension of work on the sewers and the reduction of the force of men in the city's employ is to be regretted. We hope that some way may be found to meet the difficulty arising out of the present difficulty in placing municipal loans advantageously.

Mr. C. D. Hilles is managing Mr. Taft's campaign. We assume that the President's favorite reading is Psalm 121.

A hundred thousand boy scouts are under canvas in England—a hundred thousand boys, who are being taught the fundamental lessons of good citizenship.

A very silly person writes to a contemporary anent a paragraph in this paper, and asks "where the midsummer madness comes in." We think he exhibits it himself.

Why should a British public man think it desirable to tour Canada to present to the people the views of his political party on questions relating purely to the United Kingdom?

A Montreal despatch says the question is asked: "Are a couple of Protestants legally married in Quebec who were married in Ontario and later moved to the province of Quebec?" We fail to see how such a question can possibly arise. The legislature of Quebec has no power to declare invalid what the law of another province makes valid.

We think injustice is being done to Mr. Borden and Mr. Winston Churchill by the suggestion that the invitation to visit Canada was extended by the former and accepted by the latter with the view of forcing Canadian opinion in favor of a direct contribution to the British navy. If Canadians require such a stimulus to the discharge of any imperial duty, they ought to be ashamed of themselves, and for Mr. Churchill to take any course suggestive of such a necessity would be indefensible.

The protest of the Roman Catholics of St. John against the appointment of a French bishop over that diocese is a new phase of an old question. During the episcopate of Bishop Sweeney, afterwards Archbishop Sweeney, a prelate of great ability and force of character, Irish priests were stationed among the French people of New Brunswick almost exclusively. There was a strong protest and their places were filled as rapidly as they became vacant by French priests. The Irish Catholics of St. John have therefore a precedent in their favor.

LETTERS TO THE EDITOR

Delay in School Buildings

Sir:—Permit me in all fairness to correct the misstatement of facts in yesterday's Colonist re delay in school buildings in which you infer that the mayor of last year ordered Mr. Northcott to refuse to issue a building permit for school buildings until he had assurance from the comptroller of the sale of the debentures and the monies actually in his possession sufficient to complete the work.

In the first place the mayor gave no order whatever, he recommended to the council a necessary safeguarding measure which the council saw fit to give effect to as the following copy of the minutes testify.

In the second place you will note that the question of delay pending sale of debentures does not appear in the resolution, neither was it brought into discussion in this connection.

(Copy of minutes.)

W. W. Northcott, Esq.,
Bldg. Inspector, Oct. 18, 1911.
Victoria, B. C.

Dear Sir:—I am to inform you that at the last meeting of the council, the following resolution was passed:

"Resolved that the building inspector be instructed to issue no permits for the erection, alteration or repair of school buildings, unless and until he shall have carefully compared the plans and estimates, whereby he shall be assured that in his opinion, the completion of the work will come within the estimated cost, and that he further has the assurance in writing from the comptroller that the estimated cost does not exceed the vote or the appropriation for the especial purpose.

"W. J. DOWLER, C.M.C."

This action of the council was on account of its being called upon to provide out of general revenue a large sum due to contractors by the school board to cover an excess of cost over estimate and appropriation, and other similar failures to estimate correctly, it being the only means available by which the council could prevent over-expenditure by the school board.

A. J. MORLEY.

Aug. 9th, 1912.

COMING EVENTS

Children's Regatta—A children's regatta will be held at the Gorge on Saturday afternoon, the 17th inst. A free programme of races and other acquatic sports will be carried out. All interested are requested to assist by donating prizes which should be addressed to Mr. St. Clair, Maywood P. O.

Sacred Concert—There will be another of the series of sacred concerts at the Gorge Park on Sunday evening at 8.30. Mme. Burnett will sing two solos, and the special orchestra which is engaged for these concerts, under the direction of Mr. Benedict Bantly, has arranged a very interesting programme, the various items of which will be given in detail later.

Canadian Medical Association

EDMONTON, Alta., Aug. 9.—Tomorrow afternoon at 2 p.m. the forty-fifth annual convention of the Canadian Medical association, which meets in

IS AMAZED AT CITY'S GROWTH

Continued From Page 1.

there will be a fine farming section there, stretching from the Quebec boundary to that of Manitoba, and it will supply homes for thousands of contented settlers. Then no longer will Canada be broken in the middle. It will be a populated and progressive country from coast to coast.

"Another fact of which we are proud and which is doing much for Ontario, is the extension of our government railway from Cochrane to James Bay. Already the line is completed from North Bay to Cochrane, where it connects with the National Transcontinental, and branches have been built to Porcupine, to Elk Lake, and to Charlton, and other branches are in process of construction. The Grand Trunk Pacific has secured running rights over our railway from Cochrane to North Bay, and this will put Toronto and Central Ontario in new and direct connection with the West."

Mr. Hanna also laid stress upon the success of the hydro-electric policy of the Ontario government, and paid high tribute to the organizing skill of its chief promoter, Hon. Adam Beck. "We hope to supply all the electric needs of the province and before long to bring electricity to the house of every farmer in the province."

His Prison Farm a Success

Mr. Hanna, when questioned about his prison farm at Guelph, said that its success had passed all his anticipations. The prisoners took a pride in being put upon their honor, and never took advantage of the privileges which were allowed them. Of all the hundreds of men who have been through the farm since its establishment, only one broke his parole, and he had hardly got outside of the farm fence when he repented and went back, ready to take his punishment rather than face the reflection that he had broken his word.

"But great as the success of the farm has been, it is only in its beginning. We are now putting up barns for our livestock which will be the finest, not only in Ontario, but in the world. We have crops this year which would do credit to an experimental farm, and at the same time we are converting criminals into honest men and removing from them the temptation to err again. For that reason alone, I would be proud of the work, even if it were run at a loss; but instead it is giving us a profit and we are combining good citizenship with good business.

"I am planning the issuance of a series of bulletins concerning the various phases of the work of the prison farm, and hope thus to interest other governments in our work, so that it may be followed by them. We have another farm at Port Arthur, where the same system is being followed as at Guelph and where the results are equally satisfactory."

Should Aid Mother Land

On the question of Canada's participation in Imperial defence, Mr. Hanna was quite outspoken.

"I do not know what form Mr. Borden's policy will take, but I am sure that the premier will, on his return, announce an advanced policy and one which will remove from Canada the stigma of being the only part of the British Empire which does nothing for defence.

"We should no longer leave the world in doubt as to our intentions. We should contribute three Dreadnoughts at once as a proof of our intentions to help the Mother Country, and we should be prepared to follow that up with further substantial contributions if necessary.

"This is no time to hesitate. It is the time to act, and I can assure you that Ontario is overwhelmingly in favor of immediate action to clear Canada's good name and to make it evident that she is ready to do her share in defending that empire of which she is proud to form a part."

A Man Who Does Things

Hon. W. J. Hanna, "the man with a heart," who has since 1905 occupied the position of provincial secretary of Ontario, is a remarkable combination of the keen politician and the man of deep human sentiment. In early life he made his mark at the bar of Ontario, and was, even whilst still a young man, a potent force in the propagation of Conservative sentiment in western Ontario, and the training which he then secured proved profitable in after life. Had luck gone differently with him, he might have been a member of the present Conservative federal cabinet. He was a Conservative candidate in West Lambton for the Commons in 1896 and again in 1900, but was defeated on both occasions. He has friends, including many of the opposite political faith, who declare that if W. J. Hanna had been in the house of commons from 1896 to 1900, as was the present Rt. Hon. Robert Laird Borden, he would have been the choice of the Conservative party to lead it, when Sir Charles Tupper retired in 1900, and Mr. Borden was selected as his successor.

But if Mr. Hanna did not get the chief place in the Conservative party in the house of commons he was rewarded by what he considers a position of even greater value than any gift in the disposal of the Conservatives. When Hon. J. P. Whitney came into his own in Ontario and defeated Hon. G. W. Ross, his first act, after accepting the task of forming a cabinet, was to call in W. J. Hanna as his chief lieutenant, and he named him his provincial secretary, a position which he has since held with honor to himself and profit to his province. Whenever Sir James Whitney has to leave Canada, Mr. Hanna is acting premier, and as he and his chief are of one mind on the questions of the day he finds it easy to administer the affairs of the province.

Twice since his appointment as provincial secretary of Ontario has Mr. Hanna been offered promotion to Ottawa. The first was when Mr. Borden was forming his cabinet last year. Then Mr. Hanna was invited to join the new ministry in any portfolio which he desired, but he declined, preferring to remain with Sir James Whitney and has offered the position of chairman of the Dominion Railway commission, but again he decided to remain in Toronto, notwithstanding pressure probably unequalled in the history of Canada.

But if Mr. Hanna has no desire to enter the federal minstry or accept a federal appointment he is still a very potent force in federal Conservative affairs in Ontario. He accompanied Mr. Borden in his now historic tour of Ontario in 1908, and never failed to make a hit with his audiences, proving as well versed in subjects of Dominion issues, as he is in provincial affairs. Again last summer he did yeomen's service in Ontario in opposition to the reciprocity pact, speaking from many platforms and using all his powerful influence to prevent Canada being made an adjunct of the United States.

The crowning triumph of the work of Hon. W. J. Hanna, however, has been his policy of prison reform. His prison farm at Guelph was a daring experiment, but it has been justified by its results. Hundreds of men committed to prison for more or less grave offences against the law, have been converted into good citizens and honest men by the simple application of the Golden Rule. They are given a chance to start afresh; they are treated like men and not as felons in the accepted sense of the word; and the result is that the percentage of failure in the farm pupils at Guelph is wonderfully small.

It is to be hoped that Mr. Hanna will be able to talk to the people of Victoria during his coming visit upon his prison farm at Guelph and tell how he converts criminals into honest men.

IN GUISE OF CUPID

Acting Mayor Okell Finds Office Carries With It Real Responsibilities

Alderman George A. Okell, acting mayor in the absence of Mayor Beckwith, is ready to resign his newly acquired honors and retire. He forgot, when he agreed to temporarily assume the responsibilities of the mayor's office that this is leap year, that he is the only bachelor member of the council and that designing females are abroad in the land seeking to make the most of the opportunity afforded them during the remaining part of this year of grace, 1912. The action of a Victoria resident, A. M. Vickery, in participating in a discussion in the columns of a Montreal paper on the momentous subject of whether or not bachelors should be taxed, is the direct cause of the acting mayor's perturbation. Hardly had he been seized of the reigns of power for a day but the mail brought a communication from a Mrs. Mills, who gives her address as of Latour street, Montreal, couched in the following terms:

"Dear Sir—Having observed your paragraph in Star anent bachelors. Mrs. Coleman is very right in proposing taxing single men, as it's only selfishness, keeps a great many from marrying and if they were taxed perhaps then more of them would think of marriage as the best thing to do. I am a widow myself, age 35 and Scotch, two years in Montreal and I have never got a husband yet, and I would value and think a lot of a man if I could be lucky enough to meet with one honest, reliable man, not for an easy life but for a companion, as I am a hardworking, sober and industrious woman. So, sir, if you know the said Mr. Vickery pass this on to him to read or to any other decent man and I shall answer any letters sent in. From a lonely widow. P. S. I am Protestant and not bad looking."

"Now, what do you think of that," asked the acting mayor. "I thought first it was a real, live leap year proposal to myself but apparently Mr. Vickery, whoever he is, has first chance. The letter is evidently meant for him, though addressed to the mayor."

Who Mrs. Coleman is, is not known to the acting mayor, but it is surmised as a result of her opinions on the question of marriages and taxes as expressed by her in the Montreal paper that Acting Mayor Okell is requested to play the part of cupid and bring two vacant hearts into touch.

HELD FOR GAMBLING

Pair, Whom the Police Believe Victimized Cigar Store Proprietors, Under Arrest

Believed to be the two smooth individuals who a month ago by the exercise of their undoubted abilities as sleight-of-hand artists victimized half a dozen proprietors of local cigar stands and by clever manipulation of the ivories wheedled large quantities of cigars and tobacco from the owners, C. O. Craig and J. Davidson were arrested yesterday afternoon by Detectives Heather and Fry. They were booked at the police station on a charge of gambling, but were later allowed out on bail of $250 each. The pair operated under the guise of sports whose apparent sole purpose in life was to while away time by shaking the dice for cigars. The proprietors of the stands, or at least some of them, were willing to accommodate, with the result that the strangers accummulated large credits at a number of the stores. At some they accepted cash in lieu of the cigars, at others they took the cigars—boxes of them—which they sold later to still other cigar store owners. The continuous luck aroused the suspicions of some of the victims, who reported to the police, but in the meantime the pair had flown. When Craig and Davidson appeared in he city some days ago they attempted to sell a quantity of cigars to cigar stores, at the same time showing remarkable ability with the dice. Their methods did not appeal to one proprietor who notified the police and the arrest followed. When searched about $600 was found in their possession, while diamonds of exceptional size and lustre adorned their persons.

Australia's Immigrants

SYDNEY, N. S. W., Aug. 9.—The returns for the six months ended June last show that for the first half of the year, 84,252 persons arrived in the Commonwealth, as against 40,467 de-

NOTE AND COMMENT

Mr. Cy Warman, the poet and litterateur, who has turned press agent for the Grand Trunk and Grand Trunk Pacific, is living up to his reputation as the creator of good stories. His latest is a boom for the fishing grounds in Algonquin park, Ontario, in the shape of a story that the fish there dance when the modern Isaac Waltons while away the evening hours by the use of the tin whistle and the handy toothcomb. He asserts that on a recent fishing trip, in company with Mr. Fred Cook, the well-known journalist and ex-mayor of Ottawa, he witnessed the fish dance to their music. Not only did the fish perform terpsichorean movements, but one of them actually jumped into the boat and danced a hornpipe to the tune of a sailor's jig, and then jumped back into the water again. If that story does not attract a record crowd of American fishermen to Algonquin park, it will not be Mr. Cy Warman's fault.

Mr. R. E. A. Leach, who attained a certain reputation a few years ago by reason of his manipulation of the voters' lists in Manitoba in the interest of the Liberal party, earning the nickname of "Thin Red Line Leach" by the modus oprandi of marking out the names of Conservative voters with red ink, is in serious trouble in Manitoba. He is charged with having defrauded the Dominion government out of large sums of money by charging travelling expenses when he made journeys in his capacity of homestead inspector, when in reality, it is alleged, he travelled on passes and put the money obtained from Ottawa in his pocket. He has been committed for trial and as the prosecution is being conducted by the department of justice he stands a very good chance of spending some months in the penitentiary, where he can reflect how much better honesty is than the other policy.

SOCIAL AND PERSONAL

Mr. Beverly Robinson, of Toronto, is at the Empress.

Mr. L. K. Menning, of London, England, is at the Empress.

Dr. Adam Shortt and Mr. Andrew Haydon, of Ottawa, have left on their return home.

Mr. F. Corcoran, secretary of the Y. M. C. A. at Winnipeg, is visiting relatives in Victoria.

Mr. and Mrs. Isaac Haun, of Ogden, Utah, are visiting Miss Haun's sister, Mrs. James Black, of Niagara stret.

Mrs. Frederick C. Beckett and Miss Dora Ryan have returned after a week's holiday visit to Duncan.

Rev. Prebendary Rudolf, of St. Paul's cathedral, London, is at the Empress hotel.

Mr. William Scowcroft, assistant city assessor, has gone to Mayne island on a holiday trip for two weeks.

Mr. and Mrs. John Clapperton, Oak Lodge, have gone to Harrison hot springs.

Judge Metcalf, of Winnipeg, has again arrived in the city and is staying at the Empress for a few days before proceeding north.

Mr. J. H. Woods, managing editor and proprietor of The Calgary Herald, is in the city for a few days on a business trip.

Mrs. Raynor, of Vancouver, was in town yesterday on her way to the mainland after visiting friends at Mayne island.

Alderman Alex. Stewart and family, who have been spending the past few weeks camping at Cowichan bay, have returned to the city.

Mrs. Seth Chamberlain has just returned from Oakland, where she had been on the sad mission of attending her mother's funeral, who was an old resident of the California city.

Mrs. Slingsby was the hostess at a bright bridge party Thursday afternoon at her residence, corner Hampshire road and Oak Bay avenue. A number of other friends also dropped in for tea. Those present included: Mrs. Albert Griffiths, Mrs. E. E. Blackwood, Mrs. Spratt, Mrs. Rhodes, Mrs. Roberts, Mrs. W. J. H. Holmes, Mrs. Hughes, Mrs. W. E. Scott, Mrs. Musgrave, Mrs. Bechtel, Mrs. Lennox, Mrs. Love, Mrs. Margan, Mrs. Scott Elliott, Mrs. Mrs. Irving, Mrs. McCallum, Mrs. Pigott, Mrs. Steinteig, Mrs. Gaudin, Mrs. Procter, Mrs. Nesbitt, Miss Rea, Miss Blackwood, Mrs. Soars and Miss Battle. Mrs. Slingsby was assisted by her mother, Mrs Cutler, and the tea table, which was decorated with mauve and pink sweet peas, was presided over by Mrs. Hughes and Mrs. Soars. The bridge prizes were awarded to Mrs. Procter, Mrs. Bechtel, Mrs. Nesbitt and Mrs. Rhodes.

NANAIMO PIONEER DIES

Mr. Marshall Bray Was Miner in Cariboo Gold Rush

NANAIMO, Aug. 9.—Mr. Marshall Bray, a resident of Nanaimo since 1876 and one of the best known pioneer residents of Vancouver Island, died here this evening, having never fully recovered from the effects of a paralytic stroke suffered three years ago. Deceased was a miner in the Cariboo in the days of the gold rush and during the early years was prominent in the political life of the province. In 1909 after 30 years' service as provincial agent for the Nanaimo district he was superanuated. He was born at Oakville, Ont., 72 years ago. He leaves surviving him a widow and two sons, Harry, residing at Vancouver, and Herbert at Nanaimo. The funeral arrangements have not yet been made.

Death From Suffocation

NANAIMO, Aug. 9.—Thomas Harrison, formerly employed as porter in the establishment of D. Spencer, Limited, Victoria, was found dead this morning at the rear of a livery stable here. Death, it is believed, was due to suffocation while deceased was under the influence of liquor. He was 45 years of age and had no relatives

Y.M.C.A. OFFICERS IN CONFERENCE

Gathering at De Lano Beach, Wash., Largely Attended—Gratifying Reports Are Presented

The following account of the conference of employed officers of the northwest Y. M. C. A. has been kindly communicated to the Colonist by Mr. W. R. Francis, who recently returned rom Delano Beach, where, in conjunction with Mr. E. M. Thomson and Mr. A. O. Hughes, he has been representing the Victoria association:

"The conference of the northwest employed officers of the Young Men's Christian association, held at Delano Beach, Wash., Aug. 1st to 4th., was attended by eighty-five secretaries, including two international secretaries and two state secretaries; three visitors and fourteen ladies. There were twenty-seven cities, in four states and British Columbia, represented. It is interesting to note that Victoria was fourth, and British Columbia third, in the number of representatives in attendance. The statistics of this convention show that the average time spent in association work of those present, was four and a half years. It might also be noted that, taking into account the birthplaces of the representatives present, England, Canada and twenty-four states were represented.

Speaking of the general spirit shown at the conference, each fellow seemd vitally interested in each other fellow and his work. The feeling was predominant that greater stress should be laid on the religious work of the association. That each department head should take upon himself a more vital interest in the field of religious life of the members of the department. The concensus of opinion seemed to be that the association's most important field was within itself, among its own members, and that the association is first of all responsible for, and to, its own members in their religious work. In speaking of religious work, mention must be made of the morning Bible class, conducted by Mr. Allen, general secretary of the Seattle association. Mr. Allen took as a basis of his talks, the Sermon on the Mount, and if any one thing stood out more prominently than any other in the conference, it was these talks of Mr. Allen, that were filled with force and mighty message to the Young Men's Christian associations.

"In connection with educational work, the feeling seemed to be that a new conception of the Young Men's Christian association's place in the educational world, had arisen. Heretofore the educational work within the associations has been considered more in the light of tutoring or helping those who were unable to get their education elsewhere. But now, in addition to this, a larger idea has come up, namely, that the Y. M. C. A. educational department not only fulfil the foregoing function but be also an inter-denominational school, with especial emphasis laid on the vocational part of the work.

"There was a great deal of talk along the line of boys' work, and the unanimous feeling was that too much stress could not be laid upon the boys' department, and especially in the matter of forming small groups among the boys for the purpose of the closer study of the Bible.

"One of the most interesting sectional conferences held, was that of the industrial and employment departments. The men in the industrial work certainly have some interesting and exciting experiences among the men in the construction and lumber camps and mountain towns, and too much praise cannot be given to them in their efforts to better conditions along the frontier, and win men for Christ.

"It would not be fair to close this account of the conference without making mention of the fact that the general secretary of the Victoria association, Mr. E. M. Thomasson, has been made a member of the executive committee for the coming year, which will have charge of all the arrangements for the next conference. This is a step in advance for British Columbia, as heretofor this province has not had official representation at this conference of northwest employed officers.

"Mr Thomasson has been making every effort to secure the best possible man to handle the social and membership part of the association work here, and in a few days, expects to be able to report to the directors the result of his investigation.

"We are fortunate in having secured the services of Mr. Raymond, formerly of Portland, to manage the religious and educational work of the association. Mr. Raymond comes to us, bringing with him the heartiest recommendations from the Portland association. This means that we are securing a thoroughly competent man, since Portland, one of the largest, if not the largest association in the world, has been taking the lead in all such improvements, and Mr. Raymond has been in the forefront of that city's work."

During the month there were twenty-two building permits issued in the city of Kamloops, covering a value of $151,868, showing that building activity continues in that thriving city.

Balmoral Hotel, corner Douglas and Fort streets, (convenient to everything), Victoria's ideal hotel, newly renovated throughout. Telephone in every room. Special accommodations for families at moderate terms.

NEWS OF THE CITY

Will Erect Dwelling—A permit was issued yesterday by the building inspector for a dwelling to be erected by Mrs. Lucas, on Denman street, to cost $3,600.

Used Obscene Language—Lewie Ross pleaded guilty in the police court yesterday morning to using obscene language on Johnson street, and was fined $10, with the option of fourteen days' imprisonment.

Obstructed an Officer—Tony Garstock, charged with obstructing Police Constable Allison in the execution of his duty, was fined $10 by Magistrate Prior in the police court yesterday. Evidence was given that he laid his hand on the officer's arm when he was ejecting an inebriated man from a theatre and said that the man was a friend and he would look after him.

To Make Roadway Safer—In order to render the roadway where it passes Elk Lake safer for vehicular traffic, the municipality of South Saanich proposes to cut away a large quantity of undergrowth and widen the roadway at one or two corners at present dangerous. To permit of this work the city has been asked to move back a portion of the fence around the city's property at the lake. The city engineer and water commissioner will pass upon the request.

Garbage Truck Here—The new motor garbage truck which the city some time ago purchased for the purpose of improving the system of garbage collection has been delivered by Meston and company, agents for the makers. The truck cost $4,700, and will be used in making trips to and from the garbage substations and wharf at the foot of Herald street. These substations will be so constructed that garbage deposited therein will be held in bunkers to be unloaded into the truck beneath. The addition of motor driven apparatus for this work will permit of more rapid collection and hauling.

Workman Injured—Omie Nayar, one of the workmen engaged by the E. & N. Railway company in constructing temporary tracks on the former Indian reserve, sustained a serious injury yesterday afternoon at 2 o'clock, when the swinging boom of a hoisting crane fell, striking him on the head and shoulders, and knocking him unconscious. The police motor patrol was summoned and Nayar taken to Dr. Barty's office, Fort street, and thence to the Royal Jubilee hospital, the St. Joseph's hospital, to which the man was first taken, having no accommodation available. A severe scalp wound and concussion was the extent of the man's injuries.

Thicken Base for Pavements—Following the recent award to the Canadian Mineral Rubber company of a number of streets for asphalt paving, totalling in yardage about 32,000 square yards, the company will be called upon to lay a five inch concrete base instead of the four inches hitherto considered sufficient for a light asphalt pavement. The change was advocated by City Engineer Rust when the award was being considered, but it was not definitely known whether it could be legally made under the provisions of the bylaws authorizing the paving works. City Engineer Rust has investigated and states that the bylaws provided for increasing the thickness of the base should it be so desired.

The Manufacturers' Tour—Some of the members of the British Manufacturers' association, who recently toured Canada, interviewed on their return stated that they expected some would open factories in the Dominion. Mr. J. H. Annadale said they had been impressed by the fact that Canada, now containing only seven or eight million people, could easily support a population of ten times that number. In the case of the land, the development of the country had been anticipated somewhat by land speculators; but this had not been the case with manufacturers, and there was plenty of room in that direction for extraordinary development. Mr. J. G. Locks, another member of the party, speaking more particularly from the viewpoint of the manufacturer said they expected great things from the visit. So far as his firm was concerned, they had decided to erect two factories in Canada at once, and probably more later on.

Arranging Programme—Dr. David Donald, who is at the head of the local committee of the St. John Ambulance association, which will give a demonstration during the visit of his royal highness, the Duke of Connaught, says that the various branches in the district, at Ladysmith, Nanlamo, Vancouver and other parts, had been written to and asked for suggestions as to what forms the competitions should take. In reply there have been several very pertinent letters making valuable suggestions. There will be various demonstrations of testing work in the saving of life, accidents, and a special class will be for rescues from mine diatsters.

Fire at Pender—At Pender island, on Wednesday last, fire destroyed the residence and outhouses of Messrs. Richardson and Shapter. The fire spread to the timber, some 25 acres being burned over, before it was brought under control by a force of men under Fire Warden Bittancourt.

Sanctions Spur Track—The city will permit the construction across Discovery street of a spur track from the freight yards of the E. and N. Railway company to the property of the Shawnigan Lake Lumber company. The spur will be permitted on the company agreeing that no cars shall be shunted thereon between the hours of 7 a.m. and 7 p.m.; to remove the track from off the street within thirty days after receiving notice from the city to do so; the track be laid to the satisfaction of the city engineer, and the space between the rails be planked, and that no cars be left standing upon any portion of Discovery street at any time. The consent of the board of railway commissioners will have to be secured before the city can sanction the work.

Are Incorporating—The new company that has purchased the business of Weiler Brothers is being duly incorporated as Weiler Brothers, Limited, with a capital of one million dollars. It is the intention of the new firm to erect as soon as possible a building that will be one of the show places on the Pacific coast.

For Blocking Hydrants—A charge brought by the chief of the fire department against the Canadian Mineral Rubber company of blocking access to hydrants with material for paving was called in the police court yesterday morning and adjourned for a week.

On Own Recognizances—Frank Firman, accused of vagrancy in the police court yesterday, was remanded, and allowed out on his own recognizances to appear on Monday, a hint that it was advisable that he leave the city in the meantime.

Island Art Club—There will be no official meeting of the sketching portion of the Island Art club while so many of the members are absent on their holidays. Those interested will, it is hoped, form parties by private arrangement.

Monthly Meeting — The regular monthly meeting of the board of directors of the Y. W. C. A. was held yesterday afternoon at the home on Courtney street. The reports showed that the three houses are full and that the work is going on as well as possible under present conditions. 4,775 meals were served last month.

New Engineer Officer—Major Carey, of Winnipeg, has been ordered to Work Point to succeed Major W. B. Lindsay, R.E., who is promoted to a larger district in eastern Canada and will leave shortly. Major Carey left Winnipeg on Tuesday for Victoria. He is a British engineer officer loaned five years ago to the Canadian forces.

Open Agency Here—Owing to the increase of business in Victoria the American Express company, which was formerly doing business here through a sub-agency in one of the other express companies, has appointed Mr. C. A. Solly, of the Chicago, Milwaukee & Puget Sound Railway company, its local agent, and opened its own office here.

Clerical Appointment—Rev. F. C. DesBarres, late of the dioceses of Toronto and Caledonia, has been appointed to the living of the Anglican church at Saanich by the Bishop of Columbia. Rev. J. W. Flinton, who formerly held that position has been made the rector of St. Mark's church, Victoria, and will be in residence by the first of September.

Goes Back for Trial—Detective Jewett, of the Vancouver plain clothes force, arrived in the city yesterday to take back for trial the Japanese, Nishi, arrested on Wednesday night by Detectives Murray and Handley on a charge of stealing a suit of clothes. The alleged theft occurred at Vancouver, after which Nishi came to Victoria, and was arrested upon the request of the terminal city police.

For Beating a Horse—The charge against S. Fleming, a colored man, accused in the police court by Inspector Russell, of the S.P.C.A., of beating a horse with a piece of scantling, was withdrawn in the police court yesterday, and George Mosley, another colored man, was charged with the offense. The case was adjourned until Tuesday to allow of a witness being subpoened for the prosecution.

Successful Social—The melon social held on Thursday evening by the Fairfield Methodist Ladies' Aid was a most successful affair, despite the inclemency of the weather, about eighty guests being present, who heartily enjoyed the entertainment provided. Mrs. Schroeder, Mrs. McQuarrie, Mrs. Redmond and Mrs. Kyle were kept constantly busy in the diningroom, where dainty refreshments were served from tables profusely decorated with roses and sweet peas, while in the drawingroom a number of vocal and instrumental selections were charmingly rendered by local artistes. Among these was Miss Clark, who made her first appearance before a Victoria gathering. The centre of attraction in the hall was a splendid gramophone, kindly loaned for the occasion and operated by Mr. Geo. Hancock. Rev. Mr. Conroy, of Hamilton, Ont., a former college friend of the pastor, Rev. C. W. Ganton, made a few remarks of mingled wit and wisdom, while Rev. E. A. Roberts, of Chilliwack, a warm personal friend of many present, spoke hearty words of encouragement and congratulation.

Theft of Pipe—The disappearence of fifty-two feet of sewer pipe from a new house on Pinewood avenue was not solved in the police court yesterday morning. John Grimshaw, a sewer contractor, is charged with the theft of the pipe by Robert Alexander, and for the prosecution evidence was given by J. W. Story, a cement finisher, that he was 150 yards away from the house and saw accused come with an express wagon and remove the pipe. R. Cameron said he saw Grimshaw in front of the place, but saw no wagon, nor did he see him touch the pipe. For the defence Grimshaw and two expressmen and an employee appeared. Grimshaw denied taking the pipe or being at the place, and explained that he had brought sixty feet of pipe from the pottery and twenty feet from two jobs at Oak Bay to a place on Hollywood Crescent. He laid sixty feet and removed the balance. He was corroborated by two expressmen, one telling of taking the pipe to Hollywood Crescent, the other of moving the twenty feet left afer completion of he work. The case was remanded until Monday to allow of another witness being called.

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p.m., August 9th, 1912.

SYNOPSIS

Showery conditions prevail in these districts and the pressure while increasing on the California coast remains low over the Canadian northwestern provinces, the centre of the low area being in Alberta. It has been warmer today in the north Pacific states. East of the Rockies the weather has been fair with high temperatures.

"KISMET"

This isn't a new fountain drink, or even a patent medicine; it is an Arabic word, meaning "destiny."

The destiny of PORT HARDY is written large in the annals of the immediate future.

The minds of the great leaders of commerce and industry have long been bent upon PORT HARDY. The great transcontinental railroads have surveyed right down to the water line. Factory and industrial sites have been planned close to the future extensive docks, and the men who have "the inside running" of things, have already purchased large holdings, because they know what is coming.

We are rapidly disposing of splendid 20-acre farm tracts only a short distance from the coming harbor city. On account of our large purchases, we can offer these at the very low figure of $30 per acre, upon easy terms. A payment now of $75 only, will secure you a whole farm to yourself, and you can start in right away to earn a living, and watch the values go up month by month.

We will gladly give you full particulars, maps, etc. Come along in today.

NEWS OF THE CITY

Moonlight Excursion—Arrangements are being made by the members of the Order of Moose for a moonlight excursion on board the steamer Princess Royal on Friday night.

Due Tomorrow—Mr. G. H. Barnard, M.P., who since his return from the old country has spent some time at the federal capital in the interests of his constituents, is expected to reach the city tomorrow.

For the Duke's Visit—The handsome courthouse in Vancouver is to be suitably illuminated on the occasion of the visit of H.R.H. the Duke of Connaught to that city, Attorney-General Bowser having given instructions to that effect.

Street Improvements—The boundary walls and fences of the gardens to the south side of Fort street between Cook street and Linden avenue, are now being removed to allow of the addition of another eight feet to be made to the main thoroughfare.

Boy Scouts—Mr. A. O. Hughes, writing from the camp of the Boy Scouts at Goldstream on Aug. 7th, states that the boys are doing good work and were that day starting for a tramp up the Malahat drive to the Cowichan valley, from which they would return in five days, when the camp training comes to an end.

New Apartment House—Plans for a five-storey apartment building on the corner of Government and Simcoe streets have been prepared by Messrs. Cullin & York. The building which is being erected for a local syndicate, will contain twenty-five suites of two, three and four rooms and will cost in the neighborhood of $45,000.

Saanich School Plans—Messrs. Cullin & York are the architects who will superintend the building of the eight new schools in Saanich municipality. The principal contract is a $40,000, eight-roomed brick building situated opposite St. Mark's church, on the Boleskin road. This firm has just completed a tastefully designed small residence for Mr. Dobson, on the Dallas road.

Beacon Hill Ponds—The park superintendent has men engaged at present on a very praiseworthy task, that of cleaning out the ponds in Beacon Hill park and removing the grass and weeds that have accumulated on the bottom. This has made a great improvement in the part already cleaned, and when the work is done it will prevent the surface becoming dirty when a breeze blows across the water as has been the case.

Will Illuminate—The proprietors of the Central building are leading the way in civic enterprise in preparing for the electric decoration of the city on the occasion of the forthcoming visit to Victoria of His Royal Highness the Duke of Connaught, having arranged to have the entire structure outlined in light. The installation is to be of a permanent character, so that it may be used on all subsequent occasions.

Rain Did Good—The rain of the past few days proved welcome assistance to the forest rangers on Vancouver Island. The protracted dry season had brought about conditions favorable to the destruction of much valuable timber, but as the precipitation was general all over the island, and the ground got a good soaking, the danger of such outbreaks is much less than would otherwise be the case at this season of the year.

Poultry Exhibit—Mr. J. S. Terry, chief poultry instructor of the department of agriculture, leaves today, accompanied by Mr. H. Upton, to supervise the arrangement of the B. C. Poultry Association's exhibit at the forthcoming Vancouver Fair. There will be a general meeting of that association at Vancouver on Thursday next, preceded by a meeting of the directors on the 14th. Professor W. T. McDonald, live-stock commissioner for the province, will also attend the Vancouver Fair.

Old Timers Interested—The fast dwindling band of old timers still living in Victoria are much interested in the forthcoming centenary celebration at Kamloops, and a number have signified their intention of being present. The citizens of the inland capital are preparing an elaborate programme for the occasion. There will be sports, parades, pageants, etc., the whole winding up with a grand carnival and masque. The dates for the celebration are September 17, 18 and 19.

To Improve System—It is understood that one of the matters which will be taken up with the board of directors of the B. C. Electric Railway while in London, by Mr. R. H. Sperling, the general manager in this province, will be the question of large improvements to the system in this city. Prior to his departure for the old country the other day Mr. Sperling had a long conference with Mr. A. T. Goward, the local manager, as to the needs and requirements of the company here.

Cannot Address Club—Hon. W. J. Hanna, provincial secretary of Ontario, has been compelled to decline the invitation extended to him to address the Canadian Club of Victoria. The invitation was given last night by Mr. J. O'Connell, the acting secretary of the club, but Mr. Hanna had already made his arrangements to leave for home on Sunday, and was, therefore, regretfully obliged to ask to be excused. He will go home by way of Edmonton, and will travel over the Grand Trunk Pacific from the Alberta capital to Winnipeg.

K. of P. Building—A good start has been made on the two-storey brick building of this order on North Park street, the basement being nearly completed. This 150x136ft. building, designed by Messrs. Breseman & Durfee, will contain three lodge rooms, two being 25x38 and the other 40x64, while a number of smaller rooms for committee, office and cloak rooms are provided in the plans. In the basement a large kitchen and a janitor's quarters are to be fitted up. The entire front of the building will be of pressed brick, and a marble finished entrance will admit the visitors to one of the best equipped lodge headquarters in the city. The completed establishment will cost $34,000. Far West Lodge, No. 1, and Victoria Lodge, No. 17, are already preparing for an imposing inauguration next October.

Minister Returning—Hon. Thomas Taylor, minister of public works, is expected back today or tomorrow from San Francisco, where he went to address the convention of the Pacific Highway association, and his deputy minister, Mr. W. W. Foster, is also on the way back from the meeting of the Alpine club of Canada in the Columbia valley.

"Dearth of Females"—"After reading the controversy over the dearth of females," writes a lady from Montreal to the Vancouver Island Development league," in Victoria and throughout British Columbia, "I have come to the conclusion that there should be all kinds of good openings for energetic women over there." The writer is a trained nurse by profession, but would not limit herself to that work, as she is a competent housekeeper and business woman, and she asks what wages are paid and what the conditions of women's employment are here.

Visitor Impressed—Mr. R. J. McLean, president of the Spokane Board of Trade, who paid a visit to the city a few days ago, was taken round the Gordon Head district under the auspices of the Vancouver Island Development league and was immensely impressed by the fruit crops of that most favored district. He even remarked that the growers of Wenatchee, who are among the best in the state of Washington, would envy the land he saw between Cedar Hill and the sea, and took away literature with him to let them know where and how it might be obtained.

Rules of Court—At present there are no special rules for the court of appeals, the old rules as followed in the supreme court sitting en banc having been used so far. It is the intention of the attorney-general to have compiled at once a book of rules for that court, and as the supreme court rules are out of print he is taking occasion to make a revision of these. Hon. Mr. Bowser has asked the members of the bar here and elsewhere throughout the province for suggestions in this regard, and the new rules are likely to be ready for the next legal term.

Speeder Patrol—During the dry summer months the Great Northern Railway is maintaining a patrol of its tracks by speeder after the passage of each train, so that if fire should be set by sparks or live coals from the locomotive it can be put out before it is communicated to adjoining timber. The Canadian Pacific has increased its patrol along its main and branch lines, especially the Crow's Nest Pass lines. These additions to the precautions against fire were undertaken at the suggestion of Mr. Clyde Leavitt, of the Dominion railway commission, in conjunction with the officials of the British Columbia forest service.

Enforcing Speed Law—At the Oak Bay police court yesterday afternoon, Messrs. Robert Erickson and C. J. Brown were fined $5 each for riding bicycles on sidewalks, and the Canadian Northern Pacific Fisheries company $20 for the speeding of one of its motor vehicles. Messrs. P. Ard and P. P. Schwengers both pleaded not guilty to similar charges, but were mulcted in the same amount. A warrant was issued for the arrest of R. R. Jones, who did not answer to a summons for a similar offence. Mr. J. A. Rithet, who was charged with driving on a sidewalk, and who stated that the street was too narrow to turn his car in, and that he was obliged to take the shortest way in order to catch a boat, was fined one dollar and costs.

Want Car Service—Mr. A. T. Goward, local manager of the B. C. Electric Railway company, has before him a request signed by 350 residents in the northeastern part of the city for a car service on the Mount Tolmie line. Recognizing that the district is as yet but sparsely populated, they would be content with an hourly service for the present. While the granting of this concession would entail no constructional work on the part of the company, yet with the shortage of cars for the entire local system, which has proven an embarrasing factor up to the present, there is difficulty present which is hard to solve. Mr. Goward will, however, give the matter his immediate and sympathetic consideration.

Price of Gasoline—Local motor car owners are much concerned at the prospects of an early rise in the price of gasoline. And yet the price, which ranges between 18 1-2 and 20 cents a gallon wholesale, is not as high as it is in the United States, in England, or as it was in Canada five years ago. In 1907 it was selling for 22 to 25 cents, according to quality and quantity. Crude oil declined in the meantime, but the increased demand of the last year or two has again raised the price. In England it is selling from 36 to 42 cents per gallon, and since very little crude oil is found there, it is all imported with a duty of 6 cents per gallon. The increase of motor cars and the extra demand for practically all purposes has had much to do, no doubt, in raising the prices.

Sooke Arbitration—Discussion as to the terms upon which a settlement might be arrived at in the arbitration proceedings now under way to determine the amount which the city must pay William Healey for the land required for waterworks purposes at Sooke Lake, was had at the session of the arbitration court yesterday morning. The greater part of the session was taken up by the examination by Mr. F. A McDiarmid, acting for the city, of Mr. Healey, who contended that he is entitled to an amount equal to half as much per acre as he originally paid for the entire block of land owned by him. Mr. McDiarmid pointed out that the land required by the city amounts to 165 acres, the whole Healey holdings not being needed. He outlined the settlements made with other owners of land taken by the city and contended that Mr. Healey could not expect a settlement more advantageous than that made in the other cases. At the same time the city was prepared to treat Mr. Healey liberally. Mr. McDiarmid suggested that $5 per front foot for the land fronting upon the lake would be a very liberal figure, though he did not make this as a definite offer. The court adjourned until next Tuesday, and in the meantime Mr. Healey will consider the suggestion thrown out by Mr. McDiarmid.

Oak Bay Progress—Building permits were issued yesterday by the Oak Bay authorities to Mr. R. Genn for a four-roomed house, on Sunset avenue, to cost $1600; to Mr. F. W. Cox for a house of the same size on Beach drive, at a cost of $700 and to Miss L. M. Smith for a four-roomed house on Florence street, which is to cost $1410.

Manual Training School—A commencement has been made in the grounds of the Oak Bay schoolhouse with the new building which is to be used for the purposes of a manual training school. The pile of rock behind the schoolhouse is also being blasted to improve the playground accommodation.

M.S.C.C. Secretary here—Rev. Canon Gould, general secretary of the Missionary Society of the Church of England in Canada, who has been traveling through the Dominion on a tour of inspection, was in Victoria on Thursday on a brief visit, during which he had a long conversation with the Bishop of Columbia re the problems of this diocese. Canon Gould afterwards left to join Rev. John Antle on the mission boat Columbia II., and will accompany him north.

A Vernon Visitor—Mr. Colin C. Cameron, of Vernon, who is a guest at the Dominion hotel says that the advent of the C. N. R. has had a marked effect upon the land surrounding Vernon. Many English capitalists had been visiting the place and had bought up much land for conversion into fruit ranches. Mr. Campbell estimates that no land near the town can be purchased for less than $200 an acre. Building operations are making headway there but the rise of Victoria as a centre for similar operations has attracted Mr Campbell's attention and he has come here, with a view to settling permanently.

Indians Interested—The word that Victoria is shortly to be visited by His Royal Highness the Duke of Connaught has gone broadcast among the Indians of the northern part of the province and they are anxious to be present and greet the representative of the King. It is likely that they will be strongly represented on the occasion of the celebration in the Duke's honor in this city, and possibly the programme may be so arranged that they may be able to give an exhibition of their sports and customs, which would assuredly be an interesting feature.

Charged With Forgery—Robert Neilson, a man of over 70 years of age, was arrested last evening at the Empress hotel by Detectives Perdue, Hanley and Murray and locked up on a charge of forgery. It is alleged that besides having forged checks ranging in amount from $20 and upwards in Victoria, he is also wanted by the Vancouver police on similar charges. It was feared that he would attempt to take the boat for San Francisco on Thursday evening, but though a watch at the outer wharf was kept, he did not put in an appearance. He will be arraigned in the police court this morning. On the 5th inst. Neilson was arraigned in court on a charge of obtaining money under false pretences, but the charge against him was withdrawn and he was permitted to go.

Laborers and Accidents—Owing to the frequency with which accidents occur to workmen employed upon various works, the necessity of intelligent action on the part of fellow workmen before the arrival of medical assistance is urged. It is the common practice of workmen when one of their number is hurt, to immediately pick the injured man up and convey him to some spot where, they believe, he will rest easier, pending the arrival of a doctor. In many cases this is a dangerous step to take. Should a man have sustained fractured ribs or fracture of other bones, to move him or carry him any distance merely aggravates the injury and oft-times occasions more serious hurt by forcing the broken bones through internal organs. In the case of a workman injured yesterday on the former Indian Reserve, the man, unconscious and apparently seriously hurt, was carried several hundred yards by fellow workmen, his body being almost hauled over some difficult portions of the route. The proper course to follow, doctors aver, is, if possible, to allow the injured man to rest where he fell until competent assistance arrives.

OBITUARY NOTICES

Brabiner—The funeral of the late Mr. William Brabiner, 1350 Hillside avenue, will take place this afternoon at 3 o'clock.

Gordon—The funeral of the late Mr. Edward Gordon, of Otter Point, who died on the 6th inst., will take place today at 2.30 p.m. at Sooke, B. C.

Smith—The death occurred in St. Joseph's hospital on Thursday evening of Mr. Frank Flude Smith, eighth son of the late Mr. Henry Smith and of Mrs. Agnes Smith. The deceased, who resided at 61 Cambridge street, was a native of Victoria and a dairyman by occupation. He was unmarried, and besides his mother, is survived by four sisters and eight brothers, as follows: Mrs. Henry Clarke, of Seattle; Mrs. J. J. Bothwell, Mrs. J. W. Robinson and Miss Annie M. Smith, all of Victoria; Mr. P. H. Smith, of Vancouver; Mr. T. W. Smith, of New Westminster; Mr. T. C. Smith, J. C., H. E., C. C., S. L. and Geo. Smith, all of Victoria. The funeral will take place on Monday at 11 a.m.

Davey—The funeral of the late Mr. George Davey took place yesterday afternoon from the B. C. Funeral parlors, Rev. Dr. Scott officiating. The pallbearers were Messrs. Thomas Seymour, D. Banfield, James Gwennap and W. Ford.

Births, Marriages, Deaths

MARRIED

MAYSMITH-GIBBONS—On the 2nd inst., by the Rev. John Campbell, D. D., William Hammett, son of the late Mr. William Maysmith, to Anita Katherine, eldest daughter of Mr. and Mrs. Charles H. Gibbons.

DIED

GORDON—On the 6th inst., Edward Gordon, of Otter Point, V. I., Due notice of funeral will be given.

SMITH—On the 8th inst., at St. Joseph's Hospital, after a long illness, Frank F. Smith, aged 34 years. Born at Victoria, B. C.

The funeral will take place on Monday, at 11 a.m., from the chapel of the B. C. Funeral Co., 734 Broughton street. Interment in Ross Bay Cemetery.

Friends please accept this intimation.

Only 15c a Day for The "Favorite"

Imagine being able to own a standard Columbia Grafonola for only 15 cents a day! Fifteen cents a day buys years of the greatest pleasure imaginable, the pleasure of hearing the world's best singers, the world's best speakers, the world's best bands and orchestras in the privacy of your own home.

Remember, this is not a "gramophone," not even a "hornless graphophone," it is one of the highest types of Columbia instruments, a "grafonola," with all mechanical parts fully cabinetted, the sound being enhanced and enriched by scientific tonal chambers.

The "Favorite" costs $70. It is efficient in every detail, a handsome-looking instrument, too. No finer finish is applied to a thousand dollar piano. It will ensure happiness in camp or home, wherever it is used.

Take advantage of our remarkable offer right away. It will not last long. Order a "Favorite" while you can, for 15c a day.

MATTERS OF MOMENT IN WOMEN'S REALM

Work of Women's Institutes.

City women do not realize how much progress has been made in the work of establishing women's institutes throughout the province. A report, recently issued by the advisory board shows that the government of the province fully realizes the value of the associations in the development of the farming districts of the province. The pamphlet, like all those issued from the government press, is beautifully printed, on excellent paper, and the information shows that the women of the rural districts of the province are fully alive to the responsibilities and their opportunities.

The advisory board is not representative, but has been found very useful in keeping the institutes in touch with each other's work, and in acquainting the department with their needs. Its members are: The hon. the minister of agriculture; W. E. Scott, deputy minister; Mrs. W. V. Davies, Chilliwack; Mrs. R. L. Lipsett, Summerland; Mrs. J. F. Kilby, Nelson, and Mrs. A. T. Watt, William Head, secretary.

In a brief introduction, Mr. Scott pays a tribute to Miss Laura E. Rose, who inaugurated the institute work in the province, and gives advice as to the best manner of conducting institute meetings. The aims of the institutes, Mr. Scott considers, should be, "The betterment of conditions prevailing in home life in our rural communities, by inculcating the highest ideals of home life, by teaching morality, sanitation, cleanliness, sobriety and honesty of purpose, by bringing up their children in the way they should walk, by fostering patriotism and love of country, so that the women of our fair province may prove a power in the upbuilding of the great Dominion of Canada, as a country populated by a God-fearing, industrious and sober people."

A full account of the first meeting of the advisory board, in which the policy to be followed is outlined, is given, and extracts from various papers read before the institutes during the year, are reproduced. Miss Livingstone, who gave a series of lectures on farm cookery, sent in the prize menus, which were the result of a competition instituted at her suggestion. The winners were Mrs. Gale, of Royal Oak; Mrs. Wallace Pears, of Metchosin; Miss Constance Agassiz, of Agassiz, and Mrs. R. Ingils, of Lynehead.

The department of agriculture has published a number of bulletins especially designed for the use of women. Seven of these, which are intended for the home, have been prepared by Miss Alice Ravenhill, whose ability and fitness for the task is recognized by the women of Victoria. The department, with the co-operation of Mr. E. O. S. Scholefield, provincial librarian, is supplying the women's institutes with books and magazines helpful to the wives of the farmers. Twenty-four of the institutes have sent in brief accounts of special lines of work followed, and these are embodied in the report. They show that members are on the lookout for opportunities of improving themselves and of helping their neighbors. While, in the neighborhood of Victoria there are several flourishing institutes, none are reported from other parts of Vancouver Island, with the exception of Comox. The women on the farms and fruitlands of the islands in the gulf do not seem to have organized themselves into institutes. It is quite wonderful, however, that so much has been done in so short a time by the ladies who have undertaken this work. Nowhere, perhaps, are such women's societies more needed than in this province. A large proportion of the women who have gone into the rural districts are new to conditions in this province. Even those who have spent years on farms in Eastern Canada, or on the prairies, find it hard to cope with the difficulties of pioneer life. Much harder is it for those who have come from the older civilization of the British Isles. By many families the cultivation of the land has not been undertaken as a means of earning a livelihood. Others have become so discouraged with the difficulties of clearing the land and of marketing its products that they have given up the task and come into the city to find occupation. Yet the prosperity of the province must depend, to a great degree, on the work of the farmer and the gardener. Everyone who has lived in an agricultural country knows that the farmer's wife can aid or hinder her husband very materially. The thrifty, progressive, industrious woman makes her influence felt all over the farm. Her home, her children and her husband may be her chief care, but she helps in many other ways to save and to help. It is the business of women's institutes to aid the inexperienced as well as add variety to a life that is but too apt to become monotonous. In its meetings, women of different tastes and attainments are brought together. Each has something to give, and all receive stimulation, encouragement and instruction from the papers read and the demonstrations in which they take part. It depends on the women of the rural districts of the province whether or not the work, so well begun, shall be carried on. It is for the benefit of city as well as of the country that the homes of the rural population should be happy, the farms productive and the people intelligent. To these ends the women's institutes should contribute very materially.

The Wrong Way

In a number of cities the children have been encouraged to kill flies. Newspapers have offered prizes to the boys and girls who bring in the largest numbers of dead flies. The returns show that incredible numbers of the pests may be killed by the little folk. It will occur to most people that children are not likely to be benefited morally by such a campaign. The doctors of the city of London, Ontario, have declared that there is grave danger of hurting the children's health by encouraging them to haunt the places where flies abound. Thus, in killing the insects, they will breathe the infected air. These doctors would impress it upon the people that their great aim should be to remove the filth. If this were done there would be few flies. If, in addition, all food were protected and the creatures kept from entering the houses, there would be little danger from these carriers of filth and from the germs of disease which take their rise in unclean places.

Mrs. Fawcett's Warning

Mrs. Fawcett has been a lifelong advocate of woman sufferage. It is owing to her, perhaps more than to any other speaker or writer, that many thinking men in England have come to see that it is reasonable that women should have votes. But Mrs. Fawcett and her followers found that the English public were slow to listen to argument, and slower still to act upon convictions. When the suffragettes, with their spectacular methods, aroused the attention of the public and drew around them a host of active and enthusiastic, if somewhat hysterical admirers, many women and some men, believed that their ends would be obtained sooner than by old-fashioned appeals to reason. Even Mrs. Fawcett does not seem to have foreseen the dangers that must arise from rousing the passions of unreasoning and excitable women. Now that crimes are being committed, Mrs. Fawcett has made an earnest protest against suffragette methods. It is to be hoped that the influence of Mrs. Fawcett and of other good women will prevail, and that the women of Great Britain will prove, by their words and acts, their right to a place in the councils of the nation.

Kelowna has adopted the system of taxing land values only for the raising of municipal revenue. For the current year the assessable value of land is $2,454,800 and on improvements, $845,450, in addition to which there is non-taxable property to the value of $511,600, and in the portion of the school district, which is outside the city limits, there is property to the value of $373,800 taxable for the school rate.

For Sallow, Blotchy, Rough, or Greasy Skins

(From Woman's Tribune.)

Some skins require constant grooming to keep them from becoming oily, muddy, blotchy or rough, or if such condition has developed, to overcome it. In such chronic cases it is particularly inadvisable to keep piling on cosmetics which clog the pores, collect dust and dirt—especially in warm weather—making the complexion worse than ever. It's a lot more sensible to use ordinary mercolized wax, which literally absorbs a bad complexion. Apply the wax, like cold cream, before retiring; next morning, in washing it off, you'll wash away fine flour-like particles of the unsightly cuticle. Repeat for a week or more and you'll have an entirely new skin—soft, satiny, spotless and beautiful as a child's. One ounce of mercolized wax, procurable at any druggist's, is all you'll need.

If the skin be wrinkled or flabby, here's the best possible remedy: Mix 1-2 pint witch hazel and 1 ounce powdered saxolite and use as a face bath. It works like a miracle, yet is entirely harmless.

VICTORIA GOES AHEAD IN SIXTH

Hurler Byram Weakens in One Inning and Bees Score Enough to Carry Off Day's Honors

Yesterday's Results

Victoria, 6; Vancouver, 4.
Seattle, 7; Spokane, 3.
Portland, 1; Tacoma, 0.

League Standing

	Won.	Lost.	Pct.
Vancouver	65	51	.560
Spokane	62	50	.554
Seattle	62	53	.539
Portland	55	58	.487
Victoria	51	61	.455
Tacoma	47	69	.405

VANCOUVER, B. C., Aug. 9.—Four hits, a couple of passes and two errors all bunched in one inning, the sixth, enabled the Bees to sting the champions again yesterday. Vancouver pushed two scores over in the fourth and got a couple more later in the proceedings, but fell short at the finish.

The teams will play two games today, at 3 o'clock and at 6 o'clock.

One bad inning proved the undoing of Southpaw Herb Byram in yesterday's game. With the exception of the fateful sixth when everything went wrong with the local combination the local heaver had the Bees at his mercy, and even with better support in the sixth he might have pulled through on top. McCreery was on the firing line for the Islanders and, with the exception of a couple of innings, he worked in big league style. His support was almost perfect. Second Baseman Kellar furnishing the fielding features by grabbing all kinds of hard chances.

The champions started the scoring in their half of the fourth inning when, after Bennett had fouled out to Yohe, Brashear poled out a double to left centre, Frisk walked, the former scoring on Kippert's single to centre. Frisk going to third. He scored on James' sacrifice fly to Kennedy. Kippert tried to steal home but was thrown out.

Bees Get Busy

Victoria scored all six runs in the sixth inning when bases on balls to Kellar and Kennedy, singles by McCreery, Yohe, Meek and Clementson, and errors by Sepulveda, Cates, Frisk and Brashear gave them half a dozen counters.

The Beavers scored one in the sixth on a pass to Frisk and singles by James and Cates. Things looked promising for the champions in the ninth, when James opened the inning with a three-base scratch to centre and scored on Cate's sacrifice fly to Kennedy. Sepulveda fouled out to Meek and Byram raised the hopes of the fans with a single to centre. Dode Brinker, however, ended the game by whiffing the atmosphere.

Gervais and Schmutz will work for the Beavers today, while Wilson and Smith will perform for the Islanders.

Vancouver—	AB.	R.	H.	PO.	A.	E.

Summary: Two-base hit — Strait. Three-base hit—Chick. Home run—Powell. Sacrifice hits—Shaw, Moran. Stolen bases—Shaw, Myers (2), Cooney. Pitchers' summary—1 run and 3 hits off Cadreau in 2 1-3 innings; 2 runs and 5 hits off Strand in 4 innings; 4 runs and 2 hits off Noyes in 2-3 of an inning. Struck out—By James, 3; by Strand, 1; by Kraft, 1. Charge defeat to Strand. Bases on balls—Off James, 3; off Noyes, 1. Hit by pitched ball—Powell. Time of game—2 hours. Umpire—Moran.

CHURCHILL MAKES SENSATIONAL DEBUT

PORTLAND, Aug. 9.—Girot won today's game by a score of 1 to 0, a pitcher's duel with Churchill, Tacoma's recruit. Girot was threatened by the visitors but once, in the last innings when the bases were full. Churchill made a splendid showing. Portland bunched two hits in the initial inning, but after that he was invincible. Score:

CHAMPIONSHIP LACROSSE TODAY

Victoria and Vancouver Amateur Teams Face Each Other in Most Important of Season's League Matches

The big lacrosse game takes place today.

In this instance the adjective "big" is used advisedly. It will be big in every respect—big in importance, for it will mark the turning point in the race for the Canadian amateur lacrosse championship between Victoria and Vancouver; big as an exhibition of the national game as the rivals are going to be at their full strength, and on their mettle, and big, the club sincerely hoops, in point of the attendance.

When the season started it didn't look as though Victoria would stand any chance of capturing the Mann cup, which symbolizes all that is most desirable to the amateur lacrosse clubs of the Dominion. The team's supporters were disgusted with the Islanders' first exhibitions. Since then, however, the indications have changed radically. The Capitals have come back with a vengeance. One of their latest achievements was to defeat the champions, the V. A. C. outfit of the Terminal city, on their own grounds. Their last match was with New Westminster on the Royals' turf before a crowd as enthusiastically loyal as only the residents of the Fraser river valley can be. Even under these adverse circumstances, and against a team specially loaded for them, the Islanders held their opponents down to an even score.

This afternoon at the Royal Athletic park will come the real tug-of-war. If the V. A. C. lads win they will have a cinch on the honors while if the Victorians do what they are out to do, the prospect of the championship coming here will be exceedingly bright. The game commences at 3 p. m.

Following are the respective teams:

Vancouver — Goal, Davis; point, Paynter; coverpoint, Burns; first defence, Donahoe; second defence, McQuarry; third defence, Matheson; centre, Fairheiller; third home, Gunn (capt.); second home, Peacock; first home, Davis; outside home, Murray; inside home, Crookall. Reserves, Joe Moor and Dillabough.

Victoria — Goal, "Boss" Johnson; point, F. Sweeney; coverpoint, Joe Dakers; first defence, Stan Okell (capt.); second defence, E. Taylor; third defence, J. Johnson; centre, C. McCarter; third home, A. McGregor; second home, C. Baker; first home, L. McDonald; outside home, C. Ferguson; inside home, E. Brynjolfson. Reserves, A. McInnes and J. Petticrew.

Victoria Amateur Lacrosse Club 1912. These lads will meet Vancouver, the champions, in the season's most important league fixture this afternoon at the Royal Athletic park.

BARRIEAU TOO

Young Vancouver Amateur Lightweight Will Enter Professional Ranks

Another of British Columbia's promising amateur lightweights in the person of Ernest Barrieau, of Vancouver, has decided to cast his lot with the professionals. In this he is following the example set by Joe Bayley, of this city, who now holds the Canadian championship and who, in the course of the next few days, will face his old rival, Pat Scott, of Seattle, in a fifteen round mill in this city. There is a movement on foot in the Terminal city to bring Barrieau and Scott together at Prince Rupert, a promoter from the latter city being un the mainland at present. But the most likely match is one between Barrieau and Bayley, as the Seattle lightweight is likely to have his hands full for a few weeks at least, as he must enter the ring at Cumberland shortly as well as taking on the Canadian champion at Oak Bay.

St. George vs. Esquimalt

The Sons of St. George will play Esquimalt today at Beacon Hill, the game starting at 3.15 o'clock. The Sons will be represented by the following: T. Howland, W. Bogg, F. Quillie, Laity, F. Bowser, Speechly, McKiernon, M. W. Oliver, J. W. Wasmuth, A. Carnew and Moss.

Victoria's team today will be: L. S. V. York (Capt.), J. W. D. York, H. Arthur, G. B. Grant, Alexis Martin, F. Galliher, A. C. B. Gray, L. H. Major, T. R. Leonard, Crawford Coates and H. A. Goward.

Victoria B. team: R. J. Horton (Capt.), C. Martin, N. A. Jessop, W. F. L. Elkington, J. Wise, A. Maclean, S. C. Thomson, W. T. Williams, R. Stuart, R. G. Monteith and Major Beale.

Oak Bay team: H. F. Hewett, C. P. W. Schwengers, R. C. Cooper, W. Speak, J. Bradford, T. Barclay, C. M. Blandy, E. A. Duncan, J. L. Fitzmaurice, J. A. Greenhill and C. C. Tunnard.

CAVANAUGH WILL REFEREE ON COAST

MONTREAL, Aug. 9.—Jim Cavanaugh, for years captain of the senior Shamrock Lacrosse club, who of late has been doing considerable refereeing for the National Lacrosse union, will do his last refereeing in the east tomorrow as far as the present season goes. He has just accepted the position of official referee for the remainder of the B. C. lacrosse series at a big salary and leaves for the coast tomorrow evening.

VICTORY IN ENGLAND FOR U. S. CRICKETERS

LONDON, Aug. 9.—The team of Philadelphia Cricket club today defeated the Stoke Poges eleven by three wickets in a single innings match at Stoke Poges, Buckinghamshire. The home players went to the bat first and were all out for ninety runs. The Philadelphia bowler, J. R. Conners, took seven wickets for fifty. John L. Evans made the top score of 70 for the Philadelphians.

ROBERTS COMING

English Billiard Expert Expected to Give Series of Exhibitions Here Next Week

Billiard enthusiasts will see the famous English expert, John Roberts, in a series of performances next week. He reaches here on Monday, being on a tour of Canada under the management of R. H. Clayburn, of Vancouver, a representative of Burroughes and Watts. Accompanying Roberts is R. Newman, the boy wonder. The latter has issued a challenge to any Victorian for a match $500 a side, with ivory balls. Mr. Percival H. G. Saunders, of the Empress Hotel, has received word of the challenge, and will take the names of any who wish to engage the young visitor.

Horine's Style Barred

BOSTON, Mass., Aug. 9.—The mystery of the apparent failure of George Horine, the California wonder, to sweep away all records in the high jump at Stockholm, is solved (?) by explanations made by his teammates here. It is explained that the Swedes would not permit Horine to leap in the manner by which he attained heights which dwarfed all previous records. The Swedes contended that Horine's head was the first part of his body over the bar, and insisted that the scoop style was foul. The American team has another bar at the slightest objection to his style.

COPPINGER BENEFIT ON THIS AFTERNOON

Victoria and Albion Cricket Teams Will Meet on Jubilee Hospital Grounds

Today's Programme

Victoria A vs. Albion at Jubilee hospital grounds at 1:30 sharp, Coppinger's benefit.

Oak Bay vs. the Garrison at Oak Bay.
Victoria vs. Albion at Beacon Hill.
Saanich vs. Cowichan at Royal Oak.
Esquimalt vs. Sons of St. George at Beacon Hill.

The feature of today's cricket is the game scheduled at Jubilee hospital grounds between Victoria and Albion. A "gate" will be charged, the entire proceeds to go to Michael Coppinger, the popular groundsman of the Victoria club. This will be the third meeting this season of Victoria's premier clubs, and the game should be intensely interesting. Thursday's rain has done wonders to the Jubilee grounds, and a first-class pitch is assured while the outfield will be much truer than usual. The teams are drawn against each other in the tournament for the opening day, and today's game should be a fair criterion of the chances of either of the teams reaching the final.

BRITAIN CONFIDENT OF WINNING CUP

General Impression That Harmsworth Cup Will Be Taken From U. S. This Year

LONDON, Aug. 9.—It seems to be the general opinion of those interested in the motor boat races for the Harmsworth cup that England will be able to take it from its American holders in the forthcoming international races at Huntington.

Those chiefly concerned are very confident. They include Mr. MacKay Edgar, the owner of the largest and most powerful of the challengers, the Maple Leaf IV., Mr. A. Jacobson Stone, who is the representative of the British Motorboat club; Mr. T. Sopwith, the well known aviator, Mr. Montague Batting and Mr. Lang Neil.

It is not quite certain yet whether three or four boats will be sent over but Mr. McKay Edgar's Maple Leaf IV., the Marquis of Anglesy's Mon and Mr. L. Neil's Milmar have been definitely selected. It is hoped that Mr. Dan Hanbury's Silver Heels will accompany them, although she failed to take part in the recent elimination trials owing to engine trouble.

It was intended to ship the boats by the Atlantic Transport line on August 10, but it has been found impossible to do so owing to the rough weather, so the boats will leave by the Minnehaha. Mr. A. Jacobson Stone, representative of the Royal Motorboat club, and the other members of the party will leave by the Lusitania on the same day.

VANCOUVER CADETS

Touring British Columbians Are Royally Entertained in Australia

SYDNEY, N. S. W., Aug. 9.—The Vancouver high school cadets yesterday visited the Victoria barracks, Paddington, where they gave a military display. They were reviewed by the state commandant who complimented the boys on their appearance, their excellent marching and their band. The Lord Mayor, Alderman G. T. Clarke accorded the boys a civic welcome in the town hall. In the evening they had a large audience to greet them at their concert. They sang "O Canada," in which many of those present joined.

Today the boys were taken to the Blue mountains where they viewed the splendid scenery. They were taken to all the chief waterfalls, and dinner was served at the Katoomba hotel. Today they will play football. A coach to instruct them in the fine points of Australian football will accompany them during the remainder of their tour of the Commonwealth.

The visit of the boys has created a great impression. They are seen all over the city and suburbs. Every day they are given free entry to the leading theatres by the managers, who seem to be vieing with one another in their efforts to extend their courtesies.

SIGNAL TRIUMPH FOR CANADIANS

PEORIA, Ill., Aug. 9.—Winnipeg made a clean sweep of every entry in which her crews were entered in the international regatta today. Culver, Winnipeg, won the senior singles and Phinney, Winnipeg, won the intermediate singles. Winnipeg won the intermediate doubles and the intermediate fours. Duluth won the intermediate eight, Winnipeg not competing.

GAME POSTPONED

Beacon Hill and James Bay Amateur Baseball Teams Will Not Play Today

The baseball match, which was arranged to take place this afternoon between the Beacon Hill and James Bay teams, has been postponed. As the latter nine intends going to Tacoma with an excursion being run out of this city for the purpose of meeting one of the amateur teams of the City of Destiny, it was necessary to call off the engagement. These rival aggregations, however, will take the earliest opportunity to meet.

Alberta Cricketers Win

CALGARY, Alta., Aug. 9.—Alberta won the championship of the Western Canada cricket tournament today by defeating Calgary by 50 runs. This makes the fifth successive win for Alberta. The final score was Alberta 262; Calgary 208. Manitoba defeated Saskatchewan by 17 runs. It was an exciting match right to the finish.

The Y. M. C. A. match against Oak Bay C. C. at Beacon Hill park this afternoon begins at 2.15 p. m.

ADVERTISE IN THE DAILY COLONIST

The Value of Appearance

A woman displaying good taste in one thing, will display it in another. If she is careless in the management of her home, she will be equally careless in the appearance of her clothes.

In this day and age, where the opinion of the almost total stranger may militate against her social career, no woman can neglect her appearance. She cannot afford to let slip any opportunity given her to cause admiration instead of indifference or disgust.

In 1912 one must not only "act the part," but one must LOOK the part and LIVE it to the life.

One must not only wear good clothes, but those clothes must fit the personality like a glove.

We are individualists. Our Mantle department aims to suit the personality of every patron, and we have now on display our first shipments of new Fall Ladies' Suits, navy cheviots, mixed tweeds, fine serges, striped suitings—in all the very latest styles that cannot help but make our store a veritable mecca for worshippers of fashion.

Suits in All Sizes

"NEW STYLES AT OLD PRICES"

A GREAT PROJECT FOR THIS COAST

Earl Grey and Sir George Doughty Planning to Establish a White Man's Fishery in B. C. Waters

Sir George Doughty, of Grimsby, president of the British Columbia Fisheries Co. Ltd., and prominently identified with the North Sea fisheries, is expected within a few days en route to the company's fishing stations on the Queen Charlotte islands. The company is beginning extensive operations, and Sir George Doughty says that in addition to a number of trawlers, the first of them, the steamer Canada, being now en route, a large number of fishermen will be brought from the North Sea fisheries.

In an interview given by him on his arrival at Montreal en route here Sir George Doughty said: "I went out there at the request of Earl Grey, to examine the fishing grounds and report on their possibilities. The result was that after reporting on them, I succeeded in interesting capital to the extent of one and a quarter million dollars in establishing fishing and curing plants on the island. We have the licenses for 500 square miles of herring fishing, and the salmon licenses for the two principal inlets on the island. We have now in operation a salmon packing plant with a capacity of 20,000 cases per season, and we are establishing a herring plant with a capacity of 20,000 tons a year. My son is out there as managing director.

Two New Industries

"We intend to start two entirely new industries there. One will be the manufacture of what is called Marvis, which is to fish what Bovril is to beef, and the other is the manufacture of fish food which will be a cheap food for cattle and sheep. The Marvis is made from halibut, and will be flaked fish in packages—perfectly delicious stuff, which the grocer will be able to stock. The fish food for cattle is a tasteless powder for mixing with rations that is very nutritious and fattening. Both these commodities are now on the market in England and are meeting with great success. We have the patents for both Canada and the United States."

The employes for the fisheries are to be brought out from Great Britain.

"Earl Grey's object and my own primary object," said Sir George, "is to establish a white man's fishery on a large scale on the Pacific coast. These fisheries are now largely passing into the hands of the Japanese. What we want is a British population there, engaged in a seafaring life, so that we may have the nucleus of a navy there. This may become highly important in the not far distant future."

SINKS IN COLLISION

Passengers' Narrow Escape When Steamer Founders Off Manitou

DULUTH, Minn., Aug. 9.—Five women, who clad in only their night dresses, were rescued from the steamer James Gayley when that vessel sank on Thursday off Manitou after a collision with the steamer Renssalear arrived here today. They are Mrs. E. C. Russell, Miss Edith Russell, Miss Stone and Miss White, all of Buffalo, N. Y., and Mrs. E. H. Meyers, of Watertown, N. Y. They were scantily clad and had to replenish their wardrobe here.

When the collision occurred those just named and 19 members of the crew of the Gayley were taken on board the Renssalear but that boat, having been damaged in the bow by the collision, it was feared might not be safe, so the rescued passengers and crew were again transferred, this time to the steamer Stadacona. Mate Norton and three other men were picked up from a small boat by the Corliss, the consort of the Renssalear, and taken to the Soo. Heroic work by Captain Stewart of the Gayley and Captain Secord of the Renssalear and the crews of both vessels prevented loss of life. Both captains with members of their crews went about the work of rescue and Capt. Stewart did not leave his ship till just before she sank, which she did 20 minutes after the collision, but not before every soul on board had been taken off.

The Gayley and her cargo of 7,100 tons of coal is a total loss. She was not insured and the loss will be $500,000.

Benjamin Sands, a young man employed as timekeeper by the Columbia Bithulithic Paving company, was killed at Point Grey when the wagon on which he was riding was struck by a Lulu island tramcar, which was travelling at a high rate of speed. The driver of the wagon, Mark Hall, was uninjured, but the team was killed.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

POPULAR HOSTESS GIVES "AT HOME"

Mrs. W. J. Bowser Entertains Many Prominent People at Her Residence, Rockland Avenue

Mrs. W. J. Bowser entertained at a large "at home" yesterday afternoon at her residence on Rockland avenue, when her guests included members of the cabinet and other well known people. Fortunately the rain held off, thus enabling the gathering to be held in the garden, the lawn of which was crowded with people.

Mrs. Bowser, who was assisted in receiving by the attorney general, Hon. W. J. Bowser, was, as usual, beautifully gowned, in soft black satin with an overdress of white embroidered net, edged with a deep hem of point de Venise, with which she wore a plumed white hat.

During the afternoon delightful music was dispensed by an orchestra on the veranda. The young girls assisting in serving the guests were Miss Bowser, Miss Maud Bowser, Vancouver; the Misses McBride, Pearce, Ross, Macdonald and MacDowell.

The guests present included his honor the lieutenant governor and Mrs. Paterson, who were attended by Mr. H. J. Muskett.

Mrs. Paterson was gowned in reseda green satin with an overdress of mignonette chiffon in Dresden design, with which she wore a long grey coat and a hat trimmed with black and white ostrich feathers.

Lady McBride looked very handsome in Alice blue satin made with a tunic of fine black lace, and a blue hat trimmed with yellow ostrich feathers.

Mrs. Eberts, who accompanied the speaker, Hon. D. M. Eberts, wore white with a plumed hat, and Mrs. A. E. McPhillips was much admired in a graceful picture gown of wisteria colored satin with a berthe of beautiful lace and a hat to match.

Others present included the minister of agriculture, Hon. Price Ellison, the deputy minister of agriculture, Mr. W. E. Scott and Mrs. Scott, the latter wearing dark blue with a picture hat trimmed with ostrich feathers, the minister of lands, Hon. W. R. Ross, the surveyor general and Miss Dawson, Mr. W. H. Hayward, M. P. P., Mr. Neil McKay, M. P. P., Chief Justice and Mrs. Macdonald, Mrs. Pemberton, Mrs. Beaven, Mrs. Hugo Beaven, Mrs. Loewen, Mrs. Charles Wilson, Mrs. Kirkbride, Mrs. Holmes, Mr. and Mrs. A. P. Luxton, Mr. and Mrs. Charles Rhodes, Mr. and Mrs. Newton Burdick, Mrs. Goulding Wilson, Col. Jones, Mr. and Mrs. Frank Higgins, Mr. A. C. Flumerfelt, Mrs. Irving, Mrs. Schofield, Mrs. Weston, Mrs. Erb, Mrs. Ross, Mrs. Thain, Mrs. Stewart, Mrs. Pearce, Mrs. W. J. Roper, Mrs. Wheatley, Miss Atchison (Saskatoon), Mrs. Devereux, Miss Devereux, Mrs. Alister Robertson, Mrs. R. B. McMicking, Mrs. Hugh MacLean, Mrs. C. W. Bradshaw, Mrs. Beasley, Mrs. Garnett Hughes, Mr. and Mrs. R. W. Gibson, Miss Gibson, Miss Grace Monteith, Mr. and Mrs. Ross Sutherland, Colonel Rogers, Dr. and Mrs. Hasell, Miss Dodwell, Mrs. Nesbitt, Mrs. Frank Elkins (Vancouver), Mrs. Gartshore (Vancouver), Mrs. MacDowell and the Misses MacDowell, the Misses Pitts, Mr. H. C. Hanington, Miss Work, Miss Battle, Miss Mowbray, Mrs. C. H. C. Payne, Miss Winona Troup, Mrs. Bechtel, Mrs. Lennox, Mrs. Alan S. Dumbleton, Mr. Harold Eberts and many others.

TURKEY'S DIFFICULTIES

Commission Appointed to Consider Possibility of Peace with Italy

LONDON, Aug. 9.—The Chronicle's Constantinople correspondent says that a special commission has been appointed under Ki Amil Pasha, president of the council of state, to consider the possibility of arranging peace with Italy.

Both Turkey and Montenegro have withdrawn all their troops from the frontier, according to the Constantinople correspondent of The Daily Mail, and the Montenegrin government has assured the porte of its pacific intentions.

Stamp Affixing Facilities

OTTAWA, Aug. 9.—The question of putting stamps in rolls for use in stamp affixing machines has been brought to the attention of the department for some time past. Numerous applications have been received from business men, insurance companies and other large firms doing business throughout the country, and the department has decided to comply with the request which has been made, and now is in position to supply these stamps in the one-cent and two-cent denominations, in rolls of five hundred.

The city council of Kamloops is in receipt of a complete report on the proposed hyhro-electric plant at the Barrier river and an auxiliary steam plant in the city, and this will be considered later. To develop 1,600 to 2,000 horsepower at the Barrier river is estimated to cost $237,600, in which is included $21,600 for contingencies. By the expenditure of $235,400 more there can be developed 7,500 horse-power. The cost of the ultimate development of 11,000 horse-power is estimated to cost $840,000. The provision of the auxiliary steam plant in the city is estimated to cost $122,040, including contingencies.

If your pencil a "Koh-i-noor" or only an imitation? It is well worth insisting upon being supplied with the genuine "Koh-i-noor." All dealers supply.

G. T. P. steamers to Seattle Sundays and Wednesdays. To Vancouver Mondays and Thursdays, sailings 10 a. m.

SUSPECT EN ROUTE TO STAND TRIAL

Charles Dean, Believed to Be Member of Gang of New Westminster Bank Robbers, Has Been Extradited

Charles Dean, alleged to have been one of the gang of bank robbers who robbed the Bank of Montreal at New Westminster of $265,000 and whose extradition from the United States has been secured by the Canadian authorities, was expected to arrive in the city on Thursday night on board the City of Puebla in the custody of Chief of Police Bradshaw, of New Westminster. Local detectives waited the arrival of the vessel at the outer wharf in the hope that they would secure a sight of the prisoner but Chief Bradshaw and his prisoner were not aboard.

Dean will be brought by boat, as to bring him overland by rail might result in further legal obstruction. It would be possible, it is believed, for his friends to secure a writ of habeas corpus and detain him indefinitely. In this event the California authorities who secured his arrest at Los Angeles would be powerless to act owing to the fact that with the departure of the prisoner from the state the jurisdiction of the state department ends.

Formal notification was received at New Westminster some days ago from Ottawa that the United States department of justice was ready to hand over Dean to the Canadian authorities and Chief Bradshaw left for Los Angeles to secure the prisoner and is believed to be now enroute north with him.

Towards the end of Dean's fight against extradition it was a noticeable fact that his legal advisors one by one dropped his case. Since the arrest of Frank Dalrympal and Martin Powell, at Detroit, Mich., some weeks ago with a large amount of the stolen money in their possession, the legal talent engaged by Dean has thrown up the case. It is surmised that Dalrympal and Powell were the hidden source whence the funds for Dean's fight for extradition were derived. Dalrympal and Powell will be brought to trial at Detroit and an effort made to secure their extradition. Around some of the packages of money found in their possession were the original wrappers placed thereon by the officials of the New Westminster bank and Mr. Phipps, an official of the Bank of Montreal, who was employed in the New Westminster branch at the time of the robbery, is now in Detroit where he will give evidence as to the identification of the money secured in the possession of Powell and Dalrympal. Some of the wrappers on the money are expected to still bear Mr. Phipps' initials. If this proves to be the case it will prove a most important point at the trial.

ADVERTISE IN THE DAILY COLONIST

Buy a Lot Now Where Values Will Increase in Two Months

Those who are in the best position to know values and foresee development, say that there will be a lively real estate movement in Victoria this autumn and that residential values will increase very materially in desirable districts. There is no more desirable district for home purposes in or near Victoria at the present time than

"GLORIVALE"

At Present Prices of

$500 to $725

For lots measuring one-fifth acre each.

Think of the demand there will be for good residential property. Think of the room for a substantial increase over the low prices we are asking, and

Look at These Easy Terms

Only 10 per cent cash and the balance over 24 months

"GLORIVALE" fronts on two thoroughfares that are already made and well travelled—Cedar Hill road and Pear street. The property is beautifully situated on the 2½ mile circle, and most of the lots are in fruit-bearing orchard, offering perfect locations for cosy homes. Here are some short, crisp facts about "GLORIVALE" worth considering:

Every "GLORIVALE" lot is big and dry and ready to build on.

Every "GLORIVALE" lot is clear and has soil of great fertility.

"GLORIVALE" lies in the district that will develop most rapidly.

The Mt. Tolmie car line is less than half a mile from "GLORIVALE."

The expected announcement of the Cedar Hill extension will cause "GLORIVALE" lots to enhance greatly.

There are only 36 lots in "GLORIVALE" all told, and a number have been sold this week. The rest are going fast.

Don't wait. Don't put it off. No man ever made money in real estate that he neglected to buy at the right time. Don't buy without seeing. Motors leave our office regularly for "GLORIVALE" and it costs you nothing to see the property. Call today and go out with the next motor. You will never regret it. In a few days the last lot will have been sold. Today is the time to decide.

Limited

AMUSEMENTS

The Empress Theatre—Large audiences have been the rule at the Empress theatre during the week, and it is expected that space will be at a premium at the closing shows today. The bright little playlet entitled "The Leap Year Girls," has proved an entertaining feature. Like many a successful stage work, the theme deals with a case of mistaken identity with the usual love strain running through it. It is well presented by Mr. Wallace and three clever young actresses. Von Hampton and Josselyn, two lively performers, who have a good record in musical comedy, present a singing dancing and talking act which vies with the sketch for headline honors. Their singing of "The Mysterious Rag" is a bright number. Joe Cook, an all-round entertainer, masked behind burnt cork, does some funny work, and his trick curtain is a most amusing feature. Jack Allman, the Irish tenor, sings a repertoire of pleasing melodies in good voice, and Lowe and Edwards, xylophonists, offer a musical treat with their classical and popular selections on that favorite instrument, the xylophone.

Opening of Season—"Louisiana Lou" is a musical comedy, full of go and ginger, danced and sung by a company of refreshingly active and ambitious young people. Its music has lots of swing and jingle; its principals are prime favorites and its chorus is highly trained and efficient. Barney Bernard has developed into a splendid comedian, unctuous, humorous and quick witted. Sophie Tucker has marvelously improved since her vaudeville period. Robert O'Connor is a capital type of the younger man in musical comedy shows. Bessie De Vois and Eleanor Henry are admirable girls as stake beauties. Helena Salinger and Harry Hanlon show their rich art. San Francisco had nothing but warm commendation for the cast, for the resplendant costuming, for the pretty scenery and for the chorus. "Louisiana Lou" easily reaches the high water mark as an evening's entertainment of unalloyed enjoyment, and will open the season at the Victoria Theatre on Friday evening next, August 16. San Francisco says so, and San Francisco ought to know.

Crystal Theatre—If you like dancing of the Spanish and Egyptian class, see La Belle Serranto today. This style of dancing is in a class by itself, and entirely different to the general run of dances. Davenport and Francis are making a big hit with their sketch, "The Wrong Man." It is funny all the way through, the talking being interspersed with some good singing. The pictures are of more than ordinary interest in that there are two big features: "The Girl With the Lantern," a big railroad melodrama, and "After Many Years," by the Vitagraph company. This is a story of misplaced jealousy, with the scenes laid in the western country. "Niagara Falls" is a beautiful scenic; "Polish and Pie" is an Edison comedy; "Cavalry Test in Belgium" is a topical subject that is very interesting. You will seldom see a subject like this one. "Trading His Mother" is another comedy that will take good. Here are six subjects. Take advantage of the matinee and see the whole four reels and the vaudeville. At the evening performance only three of the four reels are shown, in connection with the vaudeville.

The Allen Players—Concluding performances of "The Road to Yesterday" will be given by the Allen Players' company at the Victoria Theatre today with a matinee performance this afternoon and the final performance tonight. It will not be produced again this season. Being a remarkable play in every way, it has caused considerable attention here, being popular also for its comedy acting by Miss Felton, who plays the part of Elspeth Tyrell. The double roles the company take call for much versatility on the part of those cast in the characters. The play tells of two periods, one of 1903 and the other of 1603, dresses and costumes being changed according to time. The scene of the play is laid in England, and its action is rapid and full of new things in each act. The Royal Hungarian orchestra plays during the intervals, accompanying Miss Gladys Hudars, the popular soloist of the Allen Players.

Customs returns for the Nanaimo district for the month of July totalled $12,351.29, of which the city of Nanaimo contributed $7,330 and Port Alberni $2,861.

One of the few remaining old timers of the Kootenay passed away the other day in the person of Mr. George Goldie. Mr. Goldie was born at La Prairie, Quebec, in 1832, and came to the province twenty-three years ago, settling at Windermere, where he conducted a store. He was appointed government agent there, and was later transferred to Fort Steele, and then to Cranbrook. He was very highly esteemed. During his early manhood Mr. Goldie resided in Virginia and served in the northern army in the civil war, under General Lew Wallace. He was a mason of very high rank.

"THE SILENT WAVERLEY ELECTRIC—A CAR OF QUIET DIGNITY"

1913 Waverley Electrics

Carload Just In and Ready for Immediate Delivery

The charm of THE SILENT WAVERLEY ELECTRIC is due not alone to its CORRECT style, generous dimensions, rare upholstery and complete appointments, but more to the masterly use of EXCLUSIVE mechanical principles that make for SILENCE, SIMPLICITY, CLEANLINESS, STRENGTH, LONG LIFE and SAFETY.

We are Exclusive Agents

We are Exclusive Agents

The Silent Waverley Electric 1913 Roadster Model.

HOW FAR WILL IT RUN?

THE SILENT "WAVERLEY" ELECTRIC, which is strictly a town car, will run further than you would require to run in a whole day's outing. The second question probably would be:

HOW FAST WILL A "WAVERLEY" ELECTRIC RUN?

It will run twice as fast as the law allows within the city limits, and in some models we can safely guarantee a speed of 25 miles per hour.

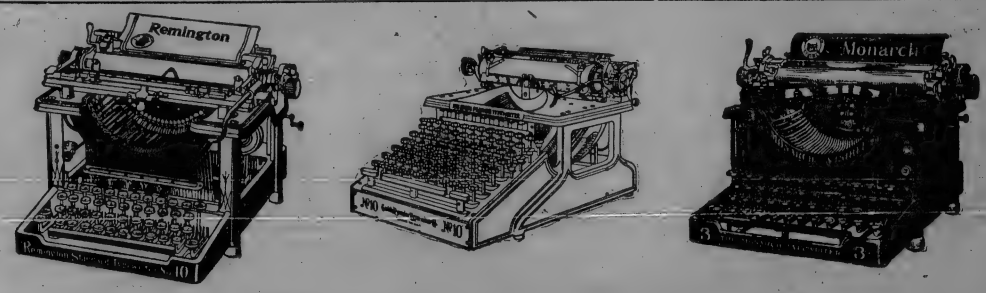

COST OF MAINTENANCE

The cost of maintenance of a SILENT "WAVERLEY" ELECTRIC, including current, will not average more than $6.00 per month.

We are Exclusive Agents

Will Hay Fever Be Next "Incurable" Disease to Be Cured?

Wonderful Results Obtained by Using Tablets Made from Fresh Fruit Juices—Lady in Cornwall Centre Tried Them.

Genuine Case of Severe Hay Fever Completely Eradicated from the System by "Fruit-a-tives," the Famous Fruit Medicine.

"I suffer tortures every year with Hay Fever—please tell me frankly if 'Fruit-a-tives' will do me any good." You are saying this to yourself as you read this article. First of all, read the facts about this distressing trouble. Hay Fever is not a nervous affliction. There is probably no actual disease of the nerves. But the nerves—and in fact the whole system—is affected by the condition of the blood. The nerves are intensely irritated by impure blood, due to defective action of the bowels, kidneys and skin. In fully ninety per cent of the cases of Hay Fever, there is chronic Constipation, Weak Stomach, Indigestion and hot, dry skin. The great truth of this is shown by the fact that sprays, gargles and other local treatment do not cure. They cannot. The trouble does not lie in the nose and throat but in the stomach, bowels, kidneys and skin. This is why "Fruit-a-tives" cured Mrs. Kemp of Hay Fever.

"Cornwall Centre, Ont., November 27th, 1911.

"I was a martyr to Hay Fever for a long time—probably fifteen years—and I suffered terribly at times. I consulted many physicians and took their treatment—and I tried every remedy I heard of as good for Hay Fever. But nothing did me any good. Then I tried 'Fruit-a-tives' and this remedy cured me completely. I am now well, and I wish to say to every sufferer from Hay Fever—'Try Fruit-a-tives.' This fruit medicine cured me when every treatment failed and I believe it is a perfect cure for this dreadful disease. MRS. HENRY KEMP."

Impure blood causes the itching eyes, sore throat, irritated nose that we know as Hay Fever. As this is true, the sensible thing to do is to purify the blood by taking "Fruit-a-tives." Mrs. Kemp took "Fruit-a-tives" and is cured.

Why not let "Fruit-a-tives" regulate your bowels, kidneys and skin? Why not let "Fruit-a-tives" give you health and strength and appetite? Why not let "Fruit-a-tives" so build up the system that you won't have Hay Fever this summer? "Fruit-a-tives" is the only medicine in the world made of fruit juices. It is particularly suited to the use of women because it is pleasant to take and acts mildly and gently. 50c a box, 6 for $2.50, trial size, 25c. Dealers in all parts of Canada sell "Fruit-a-tives." But if you are unable to obtain them in your neighborhood, they will be sent you postpaid on receipt of price by Fruit-a-tives Limited, Ottawa

HERCULES ON WAY FROM JAPAN

Norwegian Steamer Making Long Passage From Orient —Heavy Shipments of Flour to Far Eastern Ports

QUEEN AMELIE AT THE OUTER WHARF

Maple Leaf Liner Will Leave for Vancouver Today—Long Time Charter for the Steamer Bangor

The Norwegian steamer Hercules, of the Waterhouse line, is overdue from the Orient. The freighter is out 21 days from Yokohama. She was at Manila early in July and loaded a shipment of gunny bags for the wheat exporters of Puget sound, and proceeded to Japan, sailing from Yokohama on July 20. The Empress of Japan, which left three days after the Hercules, is to leave outbound again next Wednesday after a stay of ten days in port. The Hercules will proceed direct to Seattle and will return here to discharge about 200 tons of general freight, mostly Chinese merchandise, consigned to this port. The steamer will load again for the Orient, the bulk of the cargo being assembled for her being flour.

Flour will form a large part of the cargoes of the next steamers to leave for the far east. The Tamba Maru, of the Nippon Yusen Kaisha, which will leave the outer wharf on Tuesday for Hongkong and way ports, is loading large shipments of flour and wheat, and the Empress of Japan will have considerable flour in her cargo when she sails on Wednesday. The Orteric, of the Weir line, which has been at Portland for several days loading flour and general freight, is expected load more flour and general merchandise. The Orteric will probably load in the Orient for Liverpool and Glasgow and will leave the transpacific trade.

Maple Leaf Line

The Queen Amelie, Capt. McKay, of the Maple Leaf line, will leave the outer wharf today for Vancouver. The steamer discharged 700 tons of steel plates and angles at Esquimalt for the B. C. Marine Railway company, and the cruising yacht Minnie W. for Mr. R. P. Butchart and came to the outer wharf yesterday morning to discharge several hundred tons of general hardware. She has 5,500 tons of cargo for Vancouver, mostly steel and general hardware.

Bangor's Long Charter

The Norwegian steamer Bangor, fixed for the Danish East Asiatic line for the service from Copenhagen, Antwerp and Liverpool, has been chartered for a period of from sixteen months to two years on time at the rate of 42s. 6., and will load a return cargo from North Pacific coast ports for Europe.

Harrison Liner

The Politician, of the Harrison line, which was expected early next week, will probably arrive early the following week. The steamer is due at San Pedro from Honolulu and will call at San Francisco en route to Victoria.

HIGHEST FREIGHT FOR EIGHTEEN YEARS

Rates for Grain Carriers Still Mounting —olden Gate Gets 45s. and Harley More

Freight rates continue to climb. The steamer Harley, now en route to Tutuila, Samoa, from Port Natal, has been fixed for September loading to carry wheat to the United Kingdom at the rate of 46s with option of the Mediterranean at 50s. The highest rate paid for a sailing vessel for the past 18 years is being paid to the British ship Golden Gate, formerly the Lord Shaftsbury, which arrived at San Francisco, overdue from Newcastle, a few days ago. The Golden Gate is being paid 45s per ton to carry barley from San Francisco for the United Kingdom.

The French bark Rene has been chartered by Hind, Rolph & Co., for wheat from Puget sound or Portland to the United Kingdom at 41s 3d for December loading, and 40s 9d for January. The Rene is one of the last of the bounty-earning French vessels and will come out here in ballast from Dunkirk.

The French bark Rene Kervilier has been chartered by M. H. Houser for wheat from Portland to the United Kingdom at 42s 6d. The vessel was last reported at Newcastle, Australia, and will come north in ballast.

Steamship Movements

SAN FRANCISCO, Aug. 9.—Arrived: Steamers Aorangi, Sidney; Watson, Seattle. Sailed: Steamers George W. Elder, Portland; Siberia, Hongkong; Sisak, Hamburg; Asuncion, Seattle.

MONTREAL, Aug. 8.—Arrived: Corsican, Liverpool; Lake Champlain, Liverpool.

QUEBEC, Aug. 8.—Arrived: Victorian, Liverpool; Batiscan, Sidney.

SEATTLE, Aug. 9.—Arrived: Steamers City of Puebla, Falcon, San Francisco; Humboldt, Skagway; Coronado, San Francisco. Sailed: Steamers Dolphin, Skagway; President, Maverick, San Francisco; Buckman, Tacoma.

TACOMA, Aug. 9.—Arrived: Steamers Seward, Alaska; Buckman, Seattle.

Grimsby Trawler

British Columbia is not the only place where Grimsby fishermen are to develop the fisheries. The Grimsby steam trawler Australia has sailed from that port to Durban, South Africa, to form the nucleus of a steam fishing fleet, which will supply the colony with fish. The new industry is to be started on the lines of the Grimsby one, and the vessel carried a Grimsby crew, who are to act as pioneers in forming the fleet. Other Grimsby trawlers will follow shortly.

PATOS ISLAND LIGHT TROUBLES INVESTIGATED

Inspector Finds Situation Somewhat Different to Story Related to Officers of William Jolliffe

When the tug William Jolliffe was en route to Vancouver last week, Capt. Newcombe had his attention attracted by a distress signal flown from Patos Island lighthouse, a United States light near San Juan island. When he landed there the assistant lightkeeper informed him that the keeper had been showing signs of insanity and had left on the night of August 1, taking a launch belonging to the assistant. Capt. Newcombe reported the flight of the keeper by wire to the U. S. lighthouse inspector at Portland, and the inspector proceeded to the lighthouse.

He found a different state of affairs than was reported to Capt. Newcombe. It was found on investigation that the two men living alone at the lighthouse had been constantly wrangling and finally their grievances, fancied or real, was carried so far that one threatened to kill the other, and drove him from the island. Then he hoisted a distress signal and when the William Jolliffe responded he reported that his partner had been showing signs of insanity and had stolen a launch and fled.

Inspector Beck went from Portland and visited the island light in the lighthouse tender Heather. He suspended one of the belligerents, and will hold an investigation.

ACCOMMODATION SOLD FOR TACOMA EXCURSION

Sale of Tickets Stopped Yesterday Morning—Princess Charlotte Will Take Her Limit

All accommodation has been sold out for the excursion to Tacoma on the steamer Princess Charlotte today. The sale stopped yesterday morning, and all day would-be excursionists came to the C. P. R. ticket office vainly seeking tickets. The Princess Charlotte has a license for 1500 passengers, and 1400 tickets were sold, the remainder being reserved for the Fifth Regiment band and for the use of the C. P. R. officials. The steamer will leave the C. P. R. wharf at 8 a.m., and the Fifth Regiment band will give a concert during the embarkation of the passengers. Returning the steamer will leave Tacoma at 5.30 p.m., and will arrive at 11.30 p.m. Arrangements have been made by the C. P. R. to run special cars from the corner of Belleville and Government streets on all lines after the arrival of the steamer. The Fifth Regiment band will give a concert during the afternoon at Wright park, Tacoma, and special arrangements have been made by the acting mayor and members of the Commercial Club and Chamber of Commerce for the entertainment of the visitors during their stay at the Sound port.

PRINCESS MAY FOR LYNN CANAL PORTS

C. P. R. Steamer Left Last Night for Skagway and Way Ports With Big Complement of Passengers

The steamer Princess May, Capt. McLeod, of the C. P. R. left last night for Skagway and northern ports. She took a good complement of passengers including many tourists who will make the round trip. Excursions to Alaska are becoming more popular every season on the C. P. R. liners and every steamer sailing for the north has a good proportion. The Princess May took about 150 tons of general freight, mostly provisions for Haselton and interior Yukon points. The steamer Princess Royal, en route from Skagway, is expected to reach port on Monday.

Ockley for Orient

The British steamer Ockley, which is bringing a cargo of coal from Norfolk, Virginia, to San Francisco, for the U. S. government, has been chartered by Frank Waterhouse and Co. on time charter to load at Portland for the Orient. The steamer is expected to load in October.

Newington Leaves

The steamer Newington, of the fishery protection service, left yesterday for San Juan carrying stores and a supply of fuel oil for the Gunhild and Naiad.

Took Excursions

The steamer City of Puebla, which arrived about midnight from the Golden Gate with 128 passengers and 171 tons of general merchandise for local consignees, took a number of excursionists when she left the outer wharf at 6 a. m. yesterday for Puget Sound ports. Those who embarked here were: Mrs. L. G. Jamieson, Mrs. J. Bell, Miss Mary Bell, Miss Jean Bell, Miss M. Wellman, Miss J. Kundson, G. Lort, Mrs. W. Olston, C. Rolston, Miss M. Johnston, Miss E. S. Denny, Miss T. Grant, Mr. and Mrs. J. A. Grant, T. Grant, Mr. and Mrs. J. C. Ranns and S. Ranns.

In Nanaimo, during the month of July, the number of building permits issued made a represented total value of $88,630, greater than the whole of the preceding twelve months. The increase over June was some $50,000.

A reception committee has been named in connection with the centenary celebrations at Kamloops, which take place commencing September 17, consisting of Mayor Robinson, Judge Swanson, Messrs. E. T. W. Pearse, R. A. Bethune, W. F. Wood and J. Gill.

The Roman Catholic residents of Penticton are desirous of having more frequent services, and after the last service held there a meeting of the congregation discussed the mater. Rev. Father Verbeck pointed out that as he is the only priest for the whole of the lower Okanagan, compliance with the request is not possible at present. The question of building a church was also considered at this meeting and a committee was appointed to go into ways and means and report at the next monthly assembly of the people.

CLAN McIVER IS HERE FOR ORDERS

British Freighter Comes to Royal Roads From San Diego to Await Instructions—Strathnairn for Coal

The British steamer Clan McIver, Capt. Wright, arrived in Royal Roads yesterday and is awaiting orders. The Clan McIver left here on May 9th for the Orient, and after discharging at Hongkong, proceeded to Muroran, Otaru and Kushiro to load hardwood ties for San Pedro. She was chartered to load at Astoria or Puget Sound for Shanghai, but it is reported that some hitch has arisen regarding this engagement, and Capt. Wright cabled to his owners for orders. The Clan McIver will bunker at one of the Vancouver island coaling ports after receiving her orders.

Another arrival yesterday was the British steamer Strathnairn from San Francisco for Nanaimo to load bunker coal. The Strathnairn is one of the many Strath liners which brought coal to San Francisco from Norfolk for the United States government.

TUG IS DISABLED

Lady Lake is at Campbell River With Boiler Damaged—Barge Anchored at Menzies Bay

The tug Lady Lake is at Campbell river disabled as a result of some defects in her engine room, and a barge taken from Eburne with a cargo of creosoted piles for Prince Rupert is anchored at Menzies Bay. Shortly after passing through Seymour Narrows steam began to drop and it was found that boiler trouble had developed. The Lady Lake was formerly a Seattle tug.

The New Perfection Heating Plate

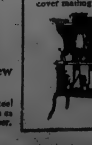

has proved a great convenience to all users of the

New Perfection
Oil Cook-stove

This year we are selling
The New Perfection Broiler
The New Perfection Toaster
The New Perfection Griddle
each designed specially for use on the New Perfection Stove.

With these appliances and the New Perfection glass door steel oven, the New Perfection is just as complete and efficient a stove as a regular coal range. Certainly, it is much cleaner and cheaper. Many people use the New Perfection all the year round.

Ask to see this Stove at your dealers. It is handsomely finished. It has long enamelled chimneys, turquoise-blue. Also cabinet top, drop shelves, towel racks, etc. Made with 1, 2 or 3 burners. Free Cook-Book with every Stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

Stock Markets and Financial News

CROP REPORT AFFECTS PRICES

Corn Yield in U.S.A. Greater by 280,000,000 Bushels Than Last Year—Strength in Canadian Railways

NEW YORK, Aug. 9.—Until the final hour when the government crop report was issued today, the stock market consisted of little more than a series of narrow advances and declines, the exception being the higher priced specialties, the Canadian group of railroads and those traversing the southern states.

There was much less trading than in the preceding days of the week, with frequent periods of extreme inertness. Traders' seemed bearishly inclined but evidenced no desire to test the market save in a tentative way. Public interest, especially as represented by the investor, continued negligible, as was shown in the heavier tendency of the four per cent bond issue.

The crop report showed an improvement in corn over a month back. Both spring wheat and oats gained in the last month and their improvement over last year ought to insure bumper crops. The estimated corn yield is greater by about 280,000,000 bushels than last year's actual harvest. Prices hesitated after the publication of the report, but soon recovered and in the final dealings the highest level of the day was attained by leading issues with an active and strong close.

Local monetary conditions pointed to increased ease, as seen in the shading rates for long time account. The banks are expected to take a large cash gain in their dealings with the local sub-treasury and interior points.

The trend of bond prices were lower on moderate dealings. Total sales par value, $1,407,000. United States bonds were unchanged on call.

MONTREAL STOCKS

MONTREAL, Q., Aug. 9.—Trading fell off to a marked extent in the afternoon with Power steady around 236 to 236 1-4. Shawnigan was firm at 152 1-2. Cement continued strong and the early demand for the preferred was in evidence at an advance of one point. Common was 29 3-8. Quebec railway was unchanged after the early break to 26. Spanish River was a firm feature at 63 to 63 1-2; Richilieu was at 117 and Rails stood unchanged at 144 1-2; C. P. R. was off a point to 277 but rallied to 277 1-2.

GRAIN MARKETS

WINNIPEG, Aug. 9.—Trading on the wheat market in options was dull and quiet following the flurry on Thursday, and prices opened ⅜ lower for October and ⅛ lower for December. Following the opening there was a further decline and with weather reports favorable, there was no indication of a rally. Winnipeg closed ⅛ lower for October and December.

Continental cables were erratic and Liverpool closed unchanged to ⅛ higher, while American markets were generally weaker at the opening and closed lower on all months. Minneapolis closed ⅜ to ½c lower. Chicago closed ¼ to ½ lower. The cash demand was good for all grades and export inquiries active. Offerings were scarce and in few hands. There was little doing in oats and flax, the former being weaker and the latter unchanged. Receipts were 110 cars.

TRADE CONDITIONS

Dun's Review Indicates Steady Progress in Practically All Directions

NEW YORK, Aug. 9.—Trade conditions throughout the Dominion of Canada according to despatches received by Dun's Review from branch offices in the leading trade centres of Canada continues favorable, steady progress being made in practically all directions.

Montreal reports that wholesale trade is up to the average for this season and that manufacturers are busier than usual. Drygoods are moving freely and furniture manufacturers are receiving good orders. Receipts of hides are larger, while leather goods are advancing.

At Quebec the situation continues satisfactory, distribution of merchandise at wholesale being fully up to normal, retail trade being seasonably active and most of the local manufacturing plants being well supplied.

Toronto reports a satisfactory movement in all lines, numerous orders in drygoods, clothing millinery and good business being placed for fall and winter goods.

Business is normal at Hamilton and the good crop prospects make the outlook encouraging.

In the far west and northwest the volume of business steadily expands under influence of favorable crop prospects and the large immigration movement.

Winnipeg reports that indications point to a heavy fall demand in practically all lines and that present trade is good, with an especially active call for hardware, implements and plumbing supplies.

Harvesting in the vicinity of Saskatoon will become general in ten days and as the outlook is fair, wholesalers anticipate improvement over last year.

Brisk trade continues at Edmonton and crop prospects are good, although there is rather too much rain.

Gross earnings of all Canadian railways reporting for the month of July show a gain of 20.1 per cent as compared with the earnings of the same roads for the same month last year.

Commercial failures in the Dominion of Canada this week numbered 20 as against 24 last week and 24 the same week last year.

NEW ISSUE OF BANK OF NOVA SCOTIA

General Manager Corrects Mistaken Impression Which Has Got Abroad

TORONTO, Aug. 9.—A. H. Richardson, general manager of the Bank of Nova Scotia, said today that the statement appearing in the press to the effect that he thought the bank was doing well to get $240 per share for an issue of a million dollars now being allotted, is quite incorrect and unauthorized. Mr. Richardson now makes this statement.

"The Bank of Nova Scotia issued $1,000,000 new capital a year and a half ago at 268 and it was promptly taken up. The present issue of $1,000,000 at 240 carries valuable rights to shareholders which they will be quick to take advantage of, and I am quite satisfied that they will be only too glad to again avail themselves of the opportunity to add to their holdings of stock and that the present issue will be as promptly taken up as former issues.

"Indeed, although shareholders received notices of allotment only yesterday and have, as provided by the bank act, six months in which to determine whether they will accept their allotments, and the privilege of paying for the stock in ten monthly installments, we have already had some of the new allotments paid for in full. The present issue is allotted at a lower rate than the previous one, owing to the desire of the bank to treat its shareholders more liberally now that it has a reserve of $500,000 on a capital of $4,000,000.

BANK ROBBERY

Charles Dean on His Way to New Westminster from Los Angeles

LOS ANGELES, Cal., Aug. 9.—Charles Dean, one of the five men charged with having robbed the Bank of Montreal in New Westminster, B. C., of $280,000 on the night of Sept. 15, last, was taken north yesterday by Chief of Police Bradshaw of New Westminster.

With the action of the state department in issuing an order for the extradition of Dean to British Columbia for trial, his fight for liberty ended.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve existing on crown lands in the Peace River Land District, notice of which bearing date April 3rd, 1911, was published in the British Columbia Gazette of the 6th of April, 1911, is cancelled in so far as the same relates to Townships 111, 113 and 115, Peace River Land District.

ROBT. A. RENWICK,
Deputy Minister of Lands.

Lands Department, Victoria, B. C., 22nd July, 1912.

NOTICE TO CONTRACTORS

Tenders will be received by the undersigned for the construction of that portion of the Canadian Northern Pacific Railway, on Vancouver Island, known as Division "D," extending from Mileage 100, West of Cowichan Lake, to a point on the Alberni Canal, a distance of approximately forty miles.

Tenders to include clearing, grubbing, grading, bridges, trestles, culverts, masonry and fencing.

Plans profiles, specifications and forms of contract may be seen, and forms of tender obtained at the offices of Mackenzie, Mann & Co., Ltd., Pemberton blk., Victoria, B. C.

Total work to be completed within one year from the date of the signing of the contract.

Tenders to be received at the offices of Mackenzie, Mann & Co., Ltd., Room No. 713, Metropolitan Building, 837 Hastings Street West, Vancouver, B. C., not later than 12, noon, on the 16th day of August, 1912, and to be enclosed in sealed envelopes marked "Tender for Construction."

The lowest or any tender not necessarily accepted.

NOTICE

Notice is hereby given that application will be made at the next sitting of the Board of Licensing Commissioners after the expiration of thirty days from the date hereof for a transfer of the license to sell spirituous and fermented liquors on the premises known as the Manitoba Bar situate at 610 Yates Street, in the City of Victoria, B. C., from us the undersigned, to Homer Alexander, of Victoria, B. C. Dated at Victoria, B. C., this 9th day of August, A. D. 1912.

LYLE LE ROY MILLS.
THOMAS DILLING PHAIR.

NOTICE

A meeting of property owners of the section of Hillside avenue included between Cedar Hill road and city limits, will be held on Monday, Aug. 12, at 8 p. m., in old fire hall, Oaklands, to discuss proposed widening scheme.

NOTICE TO CONTRACTORS

Tenders will be received at the office of the Board of School Trustees, on or before Tuesday, August 27, at 4 o'clock p. m. for the erection and completion of a six-room brick and reinforced concrete school building on the corner of Lionel street and Adelaide road, Oaklands. Separate tenders are required for the heating and ventilating.

Each tender is to be accompanied by a marked cheque, payable to the Board of School Trustees, for an amount equal to 5 per cent of the total amount of the tender.

The cheque will be returned to the contractor and also to the unsuccessful contractors when a contract has been entered into and a satisfactory bond provided.

In the event of the successful tenderer refusing to enter into a contract when called upon so to do the deposit cheque will be forfeited to the Board of School Trustees.

Drawings and specifications may be seen at the office of the undersigned.

The lowest or any tender will not necessarily be accepted.

C. ELWOOD WATKINS, Architect.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

One Could Not Wish for Better Values Than the Spencer Store Offers Today

At 7.30 an Important Sale of House Dresses and Waists for Women, and Damaged White Dresses for Girls at Half Price

Tonight at 7.30 in the Hardware Department

THERE will be so many eager shoppers that the scene will be something like a special turn at the show. At any rate it won't be the fault of the values that we are offering. One thing is certain, that there isn't a home in the city where the goods are not used, and at these small prices they should be more than worth the while of the thrifty housekeeper to make a special effort to save her money.

136 **Steel Frying Pans.** These are to be had in three different sizes and are provided with a short handle and a lip. They are a very fine quality that will render long and satisfactory service. Regular values to 45c will be sold at 7.30 for ..... 25¢

95 **Saucepans.** These are made of pressed steel and are finished with the best of grey enamel, and are all provided with covers. Their capacity is from 3 to 4 quarts, and are our regular 40c and 50c values. Tonight at 7.30, each ..... 25¢

Grey Enamel Water Buckets. Have a capacity of 10 quarts, and are fitted with strong wire and ebonized wood handles. They are as strong and as light as you could wish for a bucket to be. Regular value 85c. Tonight at 7.30, each ..... 45¢

A Big Sale of House Dresses for Today at 7.30 p. m. Regular $3.00 Values to Be Sold at $1.50. Values from $3.75 to $5.75 for $2.00

And there is such a wide assortment of colorings and patterns to choose from that you should easily find a garment that will suit you.

As to the styles, there are so many different ones that it is useless to attempt to give you a detailed description of them, but they are both serviceable and sufficiently stylish to make them desirable even for street wear.

Prints, ginghams, chambrays and many other materials are here to choose from, and you can depend on them laundering well.

The small price at which we are selling them should prove to be sufficient inducement to make them sell rapidly.

Tonight at 7.30 Women's $1.25 and $1.50 Waists Are to Be Sold at 90c

MOST of them are fancy muslin garments with embroidered fronts, and are finished with side frills and bands of lace insertions. The sleeves are three-quarter length, are sewn in and are finished with lace cuffs. All have high necks that are set in with a band of lace insertion.

Another good line is made of allover eyelet embroidery, have high necks set in with lace insertion, a band of lace insertion over the shoulders and short sleeves set in with insertions and edged with lace.

One style is here that has a sailor collar that is trimmed with lace insertion, and the points of the collar are continued down to the waistband, giving the effect of a Dutch yoke with wide pleats on either side of a panel. Under one of these pleats is the fastening, which is perfectly invisible. A wide band of insertion and shoulder pleats are on either side. The front panel is trimmed with clusters of pleats and two rows of lace insertions running across. The sleeves are the three-quarter set-in style, and the cuffs are trimmed with lace.

THEY ARE FINE VALUES AND STYLISH GARMENTS—YOUR CHOICE AT 7:30 P. M. SATURDAY AT 90¢

FOUR WINDOWS ON VIEW STREET DEVOTED TO THE SHOWING OF

Men's Street and Work Boots

THAT this showing and a closer inspection of the goods are the best advertisement for these lines is a fact that cannot be disputed, and there is nothing that we can say here that will flatter either the quality or the style of any one pair that will be found included in these four groups.

There are all the popular black leathers included, but we can supply you with new models in tan calf if you prefer them. All are new styles for the fall season and are provided with soles that are a little heavier than those we have been selling for the summer.

The lines that are marked at $4.00 and $4.50 are all "Goodyear welted," and so are some that are marked at $3.50. This fact is, in itself, a guarantee of comfort and durability.

A fine velour calf boot that is made for street wear and lined with soft but strong leather, and is marked at $3.50, is a specially good line that we have pleasure in recommending.

NOTICE THE WINDOW DISPLAY—THAT'S THE BEST ADVERTISEMENT. PRICES, $3.00, $3.50, $4.00 AND $4.50 TODAY

Damaged Dresses for Girls Go on Sale Today at Half Price

A QUANTITY of children's dresses will be sold at half their value, and in some cases less than half. They are damaged, more or less, by water.

They are fancy muslin garments, come in sizes from 2 to 14 years old, are in the French style and are trimmed with handsome embroideries, embroidery and lace insertions, laces, beadings and ribbons, and clusters of tucks.

The values range up to $6.75, and we have divided them into two groups which will be sold today at, each, $1.50 and $2.50.

CONTINUING THE SALE OF GIRLS' COLORED DRESSES TODAY—BARGAINS THAT ARE REALLY WORTH CONSIDERATION

Yesterday we quickly disposed of the line that was marked at 35c and many of the garments marked at 95c and $1.50, but there are still a few of them left for today's selling.

Early shopping is advisable and they are well worth an early shopping trip to secure them.

VALUES TO $2.00 FOR 95¢

Prints, hollands and ginghams are the materials, and the long-waisted French style with short skirts, and the Buster Brown styles are the most prevalent in this group. However, there are other styles included, some having round or Dutch necks and others having sailor or turnover collars. The range of patterns and colorings is very wide, and you should have no difficulty in picking out a style that will please you. Sizes for girls from 2 to 14 years old.

VALUES TO $2.75 TO GO AT $1.50

Choose from fine dresses made from the best of prints, ginghams, chambrays and drills, and you'll be pleased with the bargain you make. Some are in a long-waisted style and have kilted skirts, but there are dozens of other styles to choose from. Most of them are trimmed with pipings, braids and bands of material to match or of a contrasting color. Light and dark colors are here to choose from and the patterns include spots of various sizes, stripes, checks, ring patterns, diagonal checks and plain colors. Sizes for girls from 2 to 14 years old.

When You Can Buy Dependable Hose at These Prices Isn't It Wise to Purchase a Good Supply

IT isn't as though the goods were a style or a class that you intended to wear only once in a long time, they are all staple goods and the savings are so distinct that it makes it more than worth while to buy an extra supply. Every pair is a quality that we are safe in recommending to you, and as there is almost every size represented, you will not be disappointed.

Heavily Ribbed Hose for Boys. These are strong, black cotton hose and are to be had in sizes 5½ to 10½. A really splendid value at, per pair ..... 25¢

Men Will Welcome This News

MEN'S FEDORA HATS—NEW SHAPES FOR FALL. AND THEY ARE MARKED AT POPULAR PRICES

FOR the coming season we are showing a very wide range of colors and styles in Men's Fedora Felt Hats, and we invite all men who like to move with the fashion to inspect these lines.

Not only are they smart in appearance, but they are a quality that will stand hard service and render absolute satisfaction. They are a light weight and as comfortable as a hat can be made.

The range of colors include Shaw brown, alder, Oxford grey, dark green, buff mixtures, Florida mixtures, Jess brown, fawns, drabs and Cubas.

SEE THE SHOWING IN THE VIEW STREET WINDOWS—PRICES START AT $3.00 AND RANGE UP TO $4.00

A Large Shipment of Early Fall Caps for Men Has Arrived

And a fine lot they are, too. Good heather mixtures, serges, tweeds, etc., are the chief materials, and they come in a choice assortment of colors. All the shapes are new, and you'll find it hard to get a better fitting, neater, more comfortable and serviceable hat at these prices, no matter where you go.

We have all sizes, and the fine assortment of shapes, patterns and colorings should be sufficient to meet all tastes.

PRICES START AT 75¢ AND RANGE UP TO $1.50

The "Shapke" Cap for Men

This cap completes your comfort in the car—

No matter what the speed, or the wind, it clings firmly and comfortably to the head. Instantly adjustable to protect the hair completely from wind, rain and dust.

Great for a dusty road on a windy day.

The Men's Shapke is the perfect cap for motoring and steamer travel. Made of genuine Priestley's imported cravenette and featherweight silks. Durable and dustproof. Covers the entire hair and cannot be blown off, no matter what the speed is or how hard the wind blows. The silk Shapkes can be folded up and carried in the pocket without fear of wrinkling.

Splendid Values in the Silk Department

Here's the chance to secure the materials for a new dress or blouse at a price that is away below its real worth.

We haven't the space to mention all the exceptional values that are to be seen in this department, but the following list will give you an excellent idea of the values.

Fancy Silks, including medium and hairline stripes, small and medium sized checks, in a choice assortment of colors. A very special value at, yard, 50¢

Stripe Pailette, in the newest colors and styles. Per yard ..... 75¢

Shot Taffeta in fine hairline effects. Special, per yard ..... 75¢

Women's Gloves. Can You Wish for Better Bargains?

NOT that the gloves are unreliable, but because the season is advancing and we are expecting the fall goods in a very short time, and our limited space makes it a compulsory matter to make room for them. This gives you the chance to buy the best at a decided price advantage. These items are good for today, provided that the goods will hold out, but this we can't guarantee.

Glace Kid Gloves for Women. They are 16-button length and come in white only. All sizes are here, and they are our regular $2.00 values. Special, per pair $2.50

Women's Chamois Gloves in either white or natural color. They are really worth $1.00 a pair, but today we will sell them at ..... 75¢

Famous Reprints Usually Sold at 60c. Today's Special 50c

Serviceable Suit Cases at Moderate Prices

AND the prices are low enough for you to suppose that this is a special sale. But it isn't, we are simply selling them at their regular price. It is this store's huge buying power and the rapidity with which we turn over the stock, that make it possible for us to sell quality goods at small prices.

Much of the pleasure of traveling or visiting depends on the manner in which your baggage is packed. To have all you want packed in a neat, light and strong suit case that is fitted to make it convenient for you to find just what you want with as little trouble as possible is a luxury that these lines supply.

Tan Leatherette Suit Cases, size 24 inches, made on a strong steel frame. They are well finished on the inside, have steel corners, brass lock and side clasps, and leather handle. A very good value at, each..$1.50

Another Fine Value is a suit case made similar to the above but deeper in the body. It is strengthened with leather corners, and is a bargain at $1.65

Crocodile Leatherette Suit Cases, sizes 24 inches, and to be had in colors tan and black. The corners are reinforced with heavy leather, has a leather handle and brass lock and side clasps. It is well finished inside, and is a value that you rarely ished inside, and is a see marked as low as $2.95

Same as the Above, but fitted with two heavy outside straps. Price $3.50

Tan Leatherette Suit Case with a finish so like real leather that the two can hardly be told apart. It is a similar suit case to our $4.50 line mentioned above, but is extra deep. Price $4.75

Tan Leatherette Suit Case, guaranteed to stand one year of hard service. It is a well finished case, strong, light and a remarkable value. Sizes 12 and 14 inches $2.25, sizes 16 and 18 at $3.50, 24 inches at each $3.75, and 26 inches at, each $5.00

Japanese Matting Suit Case, suitable for the use of women. It is a light, strong and very neat line. Is finished with leather corners, brass lock and side clasps, and is neatly lined. Size 24 inches at, each $1.75

Japanese Matting Suit Cases. We are showing a fine assortment of these lines. All are a very high standard for quality and finish, and are to be had at the following prices: $2.25, $2.75 and $2.50

Tan Leather Suit Cases in sizes 24 and 26 inches. They are well made, are well lined, provided with shirt flaps and straps on the inside, and the corners are protected with stout leather. Size 24 is marked at only $6.50, while the 26-inch case is a bargain at $6.75

Better Grades than the above are to be had, and the prices start as low as $7.50 and range, according to size and quality, up to $20.00

Hand Grips made of black grain leather. They are well lined and are beautifully finished. A very fine value is the 16-inch line at $5.75, and the 18-inch line at $6.00

SEE THE SHOWING IN THE BROAD STREET WINDOWS

A Special Showing of Boys' Suits

AND THEY ARE NEW STYLES FOR THE FALL

STURDY suits made from the best of finely finished tweeds, and are to be had in browns, greys, greens and fawn mixtures. They are two-piece suits, made in the double-breasted style and are to be had with plain or knicker pants.

All sizes are to be had, and with such a fine assortment of well-tailored and splendidly finished garments to choose from you should readily pick out a suit that will please you and make the little man feel that he is a gentleman in the making.

PRICES START AT $3.75 AND RANGE TO $4.75

Remnants of Dress Goods and Silks. Buy Them Today and Make a Saving

IN dress goods there are all the colors that have been popular this season represented, and the range of patterns is so wide that it is impossible to describe them. They come in lengths from 1 to 6 yards, and the prices at which they are marked makes it possible to make a dress for yourself or your girl at a price that is far below the average cost of a dependable dress.

Alexandra cloths, poplins, cashmeres, fancy worsteds, suitings, tweeds, serges, shepherd's checks, nun's veilings, broadcloths, Venetians and plaids are all well represented.

IN THE SILK DEPARTMENT there are remnants of silks ranging in length from 1 to 5 or 6 yards long. There is a fine assortment of plain and fancy styles to choose from, and the range of colors is very wide. Fancy stripes, hairline stripes, ring patterns, spots and checks are here, and from an assortment like this it should be an easy matter to choose a piece that will make you a blouse that you will take a delight in.

ALL MARKED AT A PRICE THAT IS AT LEAST HALF THEIR REGULAR PRICE

Tempting Prices on Delicious Candies
